With no one within listening distance, Sophomores Stephanie Akwa and Nicole Rich are startled over the latest gossip. After being introduced as Homecoming Court members, Seniors Ken LeComte and Brian Weinberg look "studly." Donning a "sporty" tie, Mr. Jerry Turry returns a serve.

Another Trail Ride Begins

Sunrise. The students of Niles West embarked on yet another trail ride. For some, this was their first journey West, for others, it was another round-up of exciting events, thrilling adventures and non-stop action. We set up camp at Oakton and Edens Expressway. It was here we worked and played, laughed and cried, triumphed and failed. It was here we not only grew individually, but together, as one. They came from the surrounding territories of Morton Grove, Skokie, Lincolnwood and Niles to form a union.

While the country battled unemployment, inflation, and a Tylenol scare, West students were rustling with closed campus and Saturday detentions. The students united to set the West ablaze. With Homecoming festivities, athletic events, and club activities, West showed all it had to offer. The 2,100 Indians formed a tribe that could not be beat. We set our boundaries and let our cry be heard, "This is INDIAN territory!" Together, we made sure West was one.

Clockwise from left: With determination in their eyes, Felicia Bakshy, Andrea Poet and Marsha Telengater give it the ol' Freshmen try. In the chem lab, Junior Tom Svrcek pours a highly sulfuric acid. On a crisp Autumn day, a student finds the flag pole a good place to lock his bike. The football fans let everyone know this is Indian Territory.

HOW THE WEST WAS ONE

A Year Of One

Spirit out West was at the highest level possible. Signs, posters, singing and cheering were present not only in the Basrak Stadium stands, but also in the gym, cafeteria, and hallways. Defeat was not unknown, but we were never losers. We cheered for each other and ourselves not only

Clockwise from above: High up in the bleachers, Lisa Shapiro and Robin Telengater let Niles West know that they are SENIORS. What a baby face, Ellen Sprague. through victory, but also defeat. We may have been out run, out scored, out smarted and out distanced, but we were never out classed. We won as a proud tribe and we lost as a proud tribe. We were one.

Like our forefathers did in the late 1800's, we at West expanded. We broadened our horizons by getting involved with school activities. We took the risk of revealing our inner thoughts and feelings, and more often than not, we were rewarded.

We met, we shared. We had more than spirit, we had more than loyalty. We had each other. As one, we could do anything. It was the friendships we cherished the most. We made the kind of friendships that are never forgotten. And we shared a kind of year that isn't forgotten easily. A year of being one.

Clockwise from left: After the flashlight routine, the pom-pon girls relax. The football players work together on the field and off. Some students come gift wrapped. The award winning Senior Class Cabinet float. At the pep assembly, West faculty members join in the fun. During Homecoming elections, Senior Tami Weitzman casts a watchful glare over the ballot box.

Clockwise from right: With her camera on hand, Senior Sari Rubin hopes to capture interesting candids. Driving for an Indian goal, Seniors Alex Engels and Van Stamos work as one. Running for 6 points, Junior Dave Shane receives the hand-off. With the Maine South effigy ablaze, Indians cheer for victory. Senior Tami Weitzman pins a flower on court member Ken LeComte's coat.

Clockwise from below: A perfect pyramid by the sophomore cheerleaders. Closer than close . . . Seniors Lisa Shapiro and Abby Lando enjoy a football game. Fill the gym to the rim with INDIANS! Fierce Indian Sophomore John Panchisin checks out some squaws.

Clockwise from above: With waves and smiles, the freshman cheerleaders enjoy the Homecoming Parade. During P.E., Mrs. Jean Armour takes some notes on a student's playing ability. With a shining spotlight, Senior Cindy Schwartz performs a beautiful solo. While holding up the yearbook spirit board panal, Senior Maria Leberis thinks about their chances of winning. The cast of Pow Wow '82 open the show with a song and dance number.

Clockwise from below: Even with a piece of super bubble-bubble gum, Junior Sherri Michaels is not amused with typing class. Pom-pon girls can boogie ... as members Randi Levinson, Susie Kim, Kim Lorres and Jackie Levin demonstrate. The cheerleaders want YOU! Da ... da ... da ... da ... da.... GO BIG RED! Junior Mark Arenson thinks about all his homework.

Clockwise from above: "Guess who?" proclaims Junior Devra Lipsky. No matter how much Senior Greg Bezkorovainy is prepared to offer, Mr. Albiani will not raise his semester grade. At a cross country meet, Seniors Susie Rosenblum and Geri Masterton perform death defying gymnastic stunts. Senior Rich Zenner has just as much fun as the "little people" in child development. After a wonderful evening on the dance floor, Seniors Randi Levinson and Cory Binstock share a moment alone. To help promote the Great American Smoke-out at West, Seniors Helena Gabriel and Sabina Plonus solicit pledges. Yummmm . . .

Clockwise from below: Although the Indians suffered a disappointing season, the Varsity Team managed to compile two victories. With school spirit everywhere, Mrs. Lopez and psuedo pom-pon girl Shahin Koshbin enthusiastically sort out the absentee cards. With a little help from her friend, Junior Eileen Cousey gets her hair braided by Junior Jennie Campbell in preparation for a race.

HOW THE WEST WAS ONE

TOGETHER . . . WE HAD IT ALL

Meanwhile, back at the NW ranch, the bleachers and stands weren't the only places to be together. The Indians pushed, shoved and squeezed into the bookstore . . . together. We waited, waited and waited in the lunch lines . . . together. And we ate, studied, and lived . . . together.

Out in the wilderness, we attended the Who concert, "E.T.," and parties. Together, we turned on to punk, new wave, reggae, and "valley talk." Even with all the different "outside" ways of life, West students still had one thing in common . . . each other. We traveled a journey together. A special journey.

Through this journey, we became one. We crowned our Homecoming King and Queen, we cheered our football team. We published our newspaper, we performed our plays. We formed our own unique school year, filled with the things we chose. For West, it was a special journey. It was ours. It may have had little meaning to observers, but to us, the Indians, it had a great deal of meaning.

We made 1983 special . . . together . . . as one.

Pep Rallies

"Hawks fly away, Indians are here to stay" was the chant that roared through the gym on Thursday, October 21, at the in-school pep assembly. The enthusiastic crowd was entertained by the spirited pom-pon girls, while the varsity cheerleaders led a cheering contest. The program also introduced the spirit panel contest in which various clubs and organizations decorated boards of plywood to show their spirit. The contest winners were: originality, N-Club; spirit, varsity cheerleaders; and overall winner, Art Council. Also included in the assembly was a visit from Main South "principal" Mr. Agnos and "homecoming court" Mr. Jones, Mrs. Chausow, and Coach Ricardi.

The excitement continued that evening with the Twilight Pep Rally at Basrak Field, Rousing speeches were given by Coaches Brennan and Richardson. Fans and team members cheered along with the cheerleaders and Indian mascot, Brenda Hill. The event was highlighted by the traditional flash-light routine and the proclamation of Van Stamos and Cindy Atsaves as Homecoming King and Queen, along with court members Barb Stone, Carrie Hlepas, Patty O'Boyle, Cindy Schwartz, Mike Dahm, Stuart Sullivan, Kenny LeComte and Brian Weinberg. The evening concluded with the Main South effigy- burning.

Homecoming Parade

The Homecoming Parade which took place Friday, October 22nd, at 2:00 p.m., sponsored by Student Union, traveled through the streets of Lincolnwood, Skokie, Niles, and Morton Grove and followed a route which was newly designed to include many of the elementary schools and junior highs in the area. Included in the parade were King Van Stamos and Queen Cindy Atsaves, followed by their court.

All clubs were invited to participate in the parade and able to enter in one of three categories: car, truck, van, and float. The winners were Senior Class Cabinet-the best car, Spanish/German Club- the best truck, and the Recycling Center-the best float.

The parade added just the right touch to a perfect homecoming weekend. Junior Karen Minkoff commented, "I think the parade was great and much more organized than in the past." "The outcome of homecoming weekend was fantastic. It definitely showed how much work was put into it and made all of us involved very proud," said Junior Robyn Harris, parade chairman.

Court members Carrie Hlepas, Patty O'Boyle, King Van Stamos, Queen Cindy Atsaves, Barb Stone, and Cindy Schwartz await their chariot.

Homecoming Game

"Hawks Fly Away, Indians are Here to Stay" was the theme of the Homecoming Game against the Maine South Hawks. Though the Varsity team wasn't victorious, the players remained spirited throughout the entire game.

"Our main problem was our offense," commented quarterback Joe Coursey, "We just weren't playing up to our potential."

The final score of the game was Hawks 10, Indians 6. The only Indian touchdown was scored by #34 Senior Larry Asher. Other key players in the game were Brian Weinberg, and the entire defensive line.

Despite the cold weather, hundreds of fans and alumni gathered to show their support for the team. Half-time highlights included the performance by the Marching Band and Pom-pon girls, plus the procession of the Homecoming Queen and King and their respective courts.

During half-time the Pom-pon squad entertains the homecoming crowd.

Ice Cream Social

Following the Varsity Homecoming Football Game, the Ice Cream Social took place in the cafeteria. This event was catered by Baskin Robins 31 Flavors. Faculty and students choose flavors from chocolate chip mint to vanilla at each booth. The latest hits were playing on the radio to entertain the people, while they sat gorging themselves on their favorite ice cream. The Ice Cream Social was attended mostly by freshmen and sophomores; this was to their advantage because it helped them get acquainted with each other. The freshmen were able to meet other classmates of their year, that they might not have been able to meet during school. The sophomores were able to meet the incoming freshmen. Seniors, Sue Rabin and Linda Schmidt organized this special event. Sue says "This social turned out to be a fun event despite the loss of our Homecoming Game."

Awaiting his delicious ice cream cone, Freshman Brian Levy decides what his second helping will be.

Munching on an ice cream cone, Freshman Corrina Doyle punks out.

At the Ice Cream Social, some Freshmen, Jackie Rosenswak, Debbie Shwartz, Anna Wilson, and Lisa Ferran, gather while they indulge.

Freshman Karen Palen rushes to finish so she can go back for more.

Holding up the rest of the line, Freshman Kathy Tamaraz fantasizes on what flavor ice cream she would like.

Homecoming Dance

"Somewhere in the Night" was the theme for the traditional homecoming dance. The dance was the climax to the many various events from the preceding days. Many couples, before coming to the dance, attended parties where they took pictures and talked with friends about the evening ahead. The clothes styles were pretty normal with guys in suits and girls in anything from black taffeta to the very "in" mini-skirt. Some of the guys even wore tuxedos for that special "evening" look.

The band that kept everyone swinging for hours was "Cooler Near the Lake." The gym was decorated with stars and moons for a somewhat spacey effect. Junior Lynne Levey commented, "The decorations were great which made for a fantastic atmosphere." Though the dance itself ended at 11:00, the night was still not over. Most of the action-packed crowd headed downtown or to their designated restaurants for the finishing act of the night. Some popular choices were Arnie's, The Manhattan, and Sweetwater. Even though the game was a loss, homecoming weekend was a fantastic success to be remembered in the many years to come.

Couples M. Cooper and L. Levey, B. Stone and R. Chams, A. Gerszonovica and J. Albach take a break to plan out their exciting evening ahead.

Frosh-Soph Mixer

The Freshman-Sophomore Mixer was held on September 11th and gathered more than 250 underclassmen. Students were casually dressed, with a few "punksters." The evening was sponsored by the Sophomore Cabinet, which also provided appetizing refreshments including punch, lemonade, cake brownies and every type of cookie imaginable.

The mixer featured an exciting, enthusiastic band called "Heartstar." Their live, energetic music overwhelmed the gym and even inspired many freshmen to start dancing. In addition to the band there were several other activities, including basketball, volleyball, and an exciting "Beatles" movie in the wrestling room.

The theme of the mixer was, of course, to "mix" the freshmen into the high school scene, to make them feel welcome, and to promote freshman and sophomore school spirit. With the many activities, live band, and new and old friends, it was an evening enjoyed by everyone.

Taking a brief time out at the mixer, some freshmen cheer on their friends during a volleyball match.

Freshman Tony Roma satisfies his thirst and hunger in front of the Hall of Fame.

In the hallway, Freshmen Bob Butaris and Phil Rogers relax for a moment after playing a game of basketball.

These girls are all smiles at the frosh-soph mixer.

Volleyball was just one of the many activities available for freshmen and sophomores at the mixer.

College Night

Many students and parents attended College Night on September 23. College Night was held at Niles North in North's cafeteria and first floor classrooms. According to counselor Dr. Walter Cocking, "College Night was held to show the students that there are many institutes for higher learning that have adequiate facilities for their majors." He added, "College Night should show the students that they don't have to be Harvard graduates to be successful."

College Night featured over 200 colleges and specialty schools.Branches of the military services were also present to discuss their education options. The larger schools held seminars for prospective students and their parents to attend, while the majority of schools provided pamphlets, brochures and applications for admission. Senior Cary Kochman found College Night to be very beneficial. "It provided me with more information than I could get from counselors." Senior Sheryl Barasch added, "The representatives were really helpful. They told me a lot about the different college campuses. I also saved myself a lot of trouble; I didn't need to send away for my applications because I picked most of them up that night."

Open House

Open House was held Wednesday, October 27th at 7:15 p.m. beginning with homeroom. The purpose of Open House was to give the parents and teachers a chance to get to know each other and to familiarize parents with the classroom curriculum. Because time was limited, each teacher gave a brief synopsis of the year's proposed studies.

During free periods and study halls, parents were able to visit the cafeteria and eat doughnut holes while catching a glimpse of Ni-We-Hi life. Many clubs such as the Booster Club, Junior Class Cabinet, and all different sports set up booths to inform parents about their organizations.

One parent said, "It was a good opportunity to meet our child's teachers and to learn the curriculum our child will be studying throughout this year." "It's obvious that the very best students are supported by their parents' interest. It is these parents who typically attend Open House," commented English teacher, Angela Graham. Open House once again proved to be an informative evening for all those involved.

Halloween

Halloween treated West to another day of tricky costumes, make-up and masks as students and faculty roamed the hallways "incognito". It proved once again that Halloween fun is not reserved only for little boys and girls, but also for big boys and girls.

West was one big coven of ghouls and goblins and other scary monsters. On the lighter side, West was overflowing with Raggedy Anns, babies, bunnies and kangaroos. Delicious costumes were seen as many Westers donned M & M outfits. There were both plain and peanut around our hallways.

The bigger boys and girls got into the fun too, as teachers also had some fun. Mr. Richard Gragg was costumed in a very uncharacteristic suit and Mrs. Philbin also wore an uncharacteristic outfit . . . that of a witch.

There were cowboys and indians and doctors and bums. And pom-pon girls and rollar derby skaters and flashers and punkers.

"I had a fantastic Halloween," Senior Sari Rubin reported, "even though I didn't get to go trick or treating."

Pow-Wow

On October 28, 29, and 30, forty of our most talented singers, dancers, actors and actresses performed Pow Wow '82 entitled, 'I Hope I Get It'. Pow Wow, a play staged annually, is written and directed entirely by students. Seniors Michael Albert and Sheldon Silverman collaborated to write one of the best scripts ever. Albert and Silverman also directed the play with the assistance of Junior Chris LaLiberty. Senior Michelle Gorchow choreographed the play's energetic dance numbers, and Senior Gloria Camilli directed the outstanding musical numbers.

'I Hope I Get It' traced the lives of four main characters: a writer, played by Senior Rich Schwartz, a dancer, played by Junior Joanne Matz, a singer, played by Senior Cindy Schartz, and an actress played by Senior Hope Ross. As the story progressed, the lives of the four characters entwined as each tried to achieve his or her goal of success and fame.

"'I Hope I Get It' turned into a realization of the dreams of the entire steering committee," commented cowriter-director Sheldon Silverman. Not only did Pow Wow '82 meet the expectations of the cast and steering committee, it also thoroughly entertained the audience.

At rehearsal, Junior Neil Tobin belts out the hit tune, 'I Hope I Get It'.

Children's Theatre

Children's Theatre presented the charming "The Red Shoes" on December 4, 5, and 6. Kevin Schuller entranced the audience with his lead role as the head gypsy. The role of Karen, the dancer, was portrayed by Marla Wallerstein. The role of Nells, the cobbler, was played by Steve Blonder. Jose Behar portrayed Jemmo, the clown mute. The grandmother was played by Sonia Bychkov. The role of the mayor or the "burgomaster" was portrayed by Andy Lawler. Cindy Philbin directed Children's Theatre for the fourth consecutive year. According to Ms. Philbin, the play was a delight. She claims that Kevin Schuller, with his lead role as head gypsy, did a great job. This portion of the theatre department is always performed with quality and spirit from everyone involved.

The choice of the play, "The Red Shoes" was an excellent one because it combined comedy, dancing, and drama. Director, Cindy Philbin claims, "The audience was the largest we have ever had for Children's Theatre. The performance of the play was superb, the set was one of the best ever!"

Steve Blonder and Marla Wallerstein watch Jose Behar in anticipation as he puts on the red shoes.

Dance Show

The 1982-83 Orchesis Dance Company worked very hard this year in-preparation for their annual dance show. This year's show was titled "Steppin' Out". The girls certainly did "step out" as their show was a great success. They performed on February 10,11, and 12, with a full audience at all three shows. Senior Patty O'Boyle, who attended the show states, "This was the first time I ever attended an Orchesis dance show. I regret never going to any other shows because I never realized we had so many talented students here at school."

The dance company consists of 19 girls and their sponsor Miss Lori Seffren. Miss Seffren is aided by the officers: Shari Watts, President; Jill Rappin, Vice-president; Jackie Bakshy, Treasurer; and Kari Cohen, Secretary. The members of the company choreograph all the dances they perform. The girls practiced every day after school in preparation for their show. Senior Orchesis member, Sue Rabin, claims, "The Orchesis show was different this year because it was narrated and similar to a paly, which made it more exciting."

The Orchesis troup will be going on tour this year to Montréal, Canada during spring vacation. Here they will perform parts of the February dance show. New member, Senior, Lisa Grass enthusiastically claims, "All the girls were really helpful because this was my first year. I wish I had been a member for all of my four years. I encourage everyone to join next year!"

The entire dance company performs on center stage for the grand opening number.

Spring Musical

"The Wiz," the hit Broadway musical version of Dorothy's trip to see the wizard, hit the stage of Niles West March 10,11,12,18, and 19th. Under the direction of Robert Johnson, the twenty-five talented cast members "eased on down the road" to success. With an elaborate set, dazzling special effects, and the original Broadway costumes, "The Wiz" proved to be an extremely polished and professional production.

The roles of Dorothy, Glinda, and Aunt Em were doublecast, with Seniors Gloria Camilli and Cindy Schwartz sharing all three roles. Seniors Marc Shellist, Sheldon Silverman, and Mike Albert protrayed the Scarecrow, the Tinman, and the Cowardly Lion, respectively. Other major roles were played by Seniors Mitch Gitleman, Francisco Reyes, and Hope Ross, and by Juniors Nikki Rich, Andy Lawler, and Colin Lawler. A classic story in a contemporary mode, the Niles West production of "The Wiz" did justice to both the old and new, and thoroughly entertained its audiences.

Evilline, the wicked witch, has viciously locked up Dorothy and her friends.

The Wiz, played by Shahin Koshbin, points the way to Dorothy and her friends.

Football

Niles West had one of the toughest schedules in the state. Four of the teams qualified for the state playoffs and one was beaten by the Indians. The Varsity team started the season off with a victory over one of the top teams in the state, Aurora East. The following game was against No. 1 ranked Deerfield, which the Indians played even with for three quarters.

Then the worst started to happen, injuries were something that would take its toll for the year. Coach Richardson felt that if the team stayed healthy they could have a winning season, but with lack of depth and playing many juniors, it became only a dream.

The Indians played a great game by destroying Maine East. They also gave an outstanding effort in the Homecoming game against Maine South. A near upset over undefeated Evanston showed the pride of Niles West. The All Conference players were Seniors Mike Dahm, Larry Asher, and Brian Weinberg. Coach Richardson believes the team fell short of one goal, to have a winning season. But they did reach the goal of improving over the previous year.

Football

"Of course we wanted to win, but not at the expense of our goals," stated Coach Casten.

Although the sophomore football team ended up with a 1 - 8 record, they were successful in different ways.

"At the beginning of the season, the coaches decided on a goal; the goal was to do everything possible for the varsity to win next year," stated Casten. So they decided to play as many players as possible to insure a great number of available boys for the varsity next year. As they finished up the season, the sophomores had 38 mumbers.

Another goal the coaches had in mind, was to develop as many skilled players as possible. They were quite successful, developing three punters, three kickers, two quarterbacks, and seven backs.

Soccer

The Varsity Soccer Team had a very frustrating year. Early in the season, when the team played its least skilled opponents, it could not produce a win. Then came a turnabout. In the middle of the season, the kickers assembled a three game winning streak by defeating Waukegan West 4-2, Loyola 1-0, and Highland Park 1-0. Things seemed to be going well, and it looked like the Indians would have a good season. It was then that another frustrating blow was dealt to them. In the Highland Park victory, junior Barry Margolin, one of the best players on the team, was injured. The loss of his agility and speed put an end to the kicker's style of quick-attack defense. After his injury, it seemed like a repeat of the beginning of the year. The kickers lost to teams that they should have beaten such as Notre Dame, 1-0. However, they never were blown-out. They put up commendable efforts against teams such as New Trier, Glenbrook North, and Maine South. As Captain Van Stamos said, "It was a tough season. After a good game, we would think that things were going right, and then everything would fall apart in the next game."

In the State Tournament, the Indians played well. They got revenge on Notre Dame in the first game by beating them 5-0. In the second game the kickers gave an all-out effort to beat Maine East 2-1. Even when they lost the sub-sectional championship match to Maine South 4-2, they played well and kept the game close.

All-Conference honors went to junior midfielder Seesun Yoo and junior fullback Bill Numrich. Senior goalkeeper Glen Guttman played very well in the net. The Indians final over-all record was 6-12-2.

Junior S. Erlebacher gets in front of a forward to put an end to a New Trier scoring threat.

Junior Y. Kim makes a quick transition to generate some offense.

The Frosh A team had an undefeated 11-0-2 season. The squad won the conference title as well as the CSL tournament at the end of the year. They outscored their opponents 64-12. The only blemishes on their record were a 2-2 tie with Highland Park and a 0-0 tie in a conference game with their toughest opponent, Maine South. In both matches, West had many opportunities to win. Coach Peter Zorn explained the reason for the team's success, "Some teams had bigger and better players, but they did not play together as well as we did."

The team's top players were following in the footsteps of their older siblings. Center halfback Mike Reinhardt's big foot reminded many of brother Tony's powerful leg. Mike led the team in scoring. Zorn commented, "I usually try to put my top scorer at center half and set him up for goals." The defense was anchored by fullback Joe Lochner, just as it was by brother John the year before for the varsity. Joe and goalie John Hahn helped the team post seven shutouts.

Unlike the A's, the B's and Sophomores had losing seasons, posting 0-11-2 and 4-11-2 records respectively. Both teams, however, were successful in their own way. The B's, led by Jeff Beckerman, Mike Hedrich and Shane Yankhama, picked a good time for the only two goals of the year by tying New Trier and Highland Park 1-1. Coach Klebba noted that his crew was an "enthusiastic, hard-working group that could not be chased from the practice field."

The Sophomore team, during one stretch, went undefeated in 5 of 7 games, outscoring its opponents 17-14. The team's top performers included co-captains Angelo Costas, Matt Hedrich, Jim Griletz, and Dan Arendt. Coach Sweeney was pleased with the squad's performance because, "We worked on winning games, and we won more games than last year."

Whether it was a fine record, hard work or improvement, all three clubs had something of which to be proud.

Golf

The golf team had a super season! The team had only 4 victories and 8 defeats, but in conference, they finished second. Second only to New Trier, the State Champs. Senior and Captain Pete Joseph led the Indians in conference with a one over par 73 and close behind were senior Frank Horvath, junior Scott Manzara, and sophomores Jeff Krakow and Larry Rivkin. Coach Hoeppner explained, "This was the best season that Niles West has had in 15 years. I'm extremely proud of my team, especially of Captain Pete Joseph who took Conference and qualified for sectionals and placed 20th out of 160 players downstate."

Coach Galla was very happy with the progress of his Frosh-Soph team. The team's record was 2-9 but much improvement was made week by week. Coach Galla recalls, "For some of the boys, it was their first year of golf and by the time next season starts, they'll be contending for spots on the varsity team." Through the consistent play of Gary Miller, Lionel Go, and Scott Spata, the Frosh-Soph team had a successful season.

Boys Cross Country

The Niles West Boys' Cross Country Team had a very successful season finishing with a 7-6 dual meet record. At invitationals, the Indians captured a trophy at each race. Although the team consisted of only seven members, each runner practiced hard and consequently the hard work paid off. The Indians were led by Junior Jim Woodier, who was named All-Conference and qualified for the sectional meet, where he placed 31st. Other runners included Seniors Alex Paul, Matt Filippini, Chris Pawlowski, Henry Meinke, Junior Dan Sullivan and Sophomore Ed Perlmutter.

Highlights of the fine season were the spectacular 2nd place team standing at the Glenbrook South Titan Invite, winning the Township Championship, and placing 5th at the Niles West Indian Invitational.

The Freshman Team, lead by Coach Ron Campbell, ran to a respectable 6-2 dual meet record and a surprisingly strong 3rd place in conference. Top performers included Nick Antonio, Mike Bourgerie, Ron Chan, Borpit Intawiwat, Rocky Lee, Bill Netzel, Todd Payuk, and Sean Samuel. After such a successful first year, West can look forward to a top cross country team in the near future.

Tennis

"The Girls Varsity Tennis team did as well as they were capable of doing," claims head coach Mr. Winans. The final record was 3-10. Winans also said, "The play was better than the record 'pointed' out." Most valuable player was senior Lisa Shapiro, and voted best team member was senior Georgette Bartholomew. The team was led by captains Debbie Havdala and Lisa Shapiro. Winans defined his highlight of the year as when his number one doubles team of Lisa Shapiro and Ellen Havdala came back from a deficit of zero to five games in the District meet to win 7-5, 7-5. One other thing Winans said was, "The girls showed much improvement in attitude, basic skills, and in competitiveness." The team really worked hard and strived for a better showing. They also showed stiff backbone when the tough meets arose. To conclude, the netters ended up in a three-way tie for fourth place in the District meet.

Girls Cross Country

The Niles West Girls Cross Country Team was not quite a successful as the 1981 team. After losing four of seven varsity runners, the team relied on Seniors Patty Doles, Robin Telengater and Junior Jennie Campbell to lead the pack. From the beginning of the season, Coach Judy Sloan and the Indians realized that 1982 was to be a rebuilding year. After establishing West as one of the state's best Girls CC Teams in only three years, Coach Sloan had a hard time topping last year's 3rd place State triumph. Simply, the Indians lacked depth. With only three runners with any great amount of exerience, the Indians had a hard time at the big meets.

For Doles, Telengater, and Campbell, their combined experience of six state races was not enough to lead the Indians to another trip downstate. Although the Indians won only two dual meets and one invitational, the season was far from unsuccessful. With top notch runners like Doles, Telengater and Campbell, West was well represented on the CC course. The trio posed threats at every race and often, all three placed in the top 10.

At the CSL Conference Meet, all three ran to All-Conference standings as Doles finished 6th, Telengater, 10th; and Campbell, 12th. For Telengater, this was her second All-Conference honor and for Campbell, this was her third. The rest of the Indians worked to complement these fine places and consequently the team placed fourth. Other dependable runners included Junior Connie Anderson, Sophomores Eileen Coursey, Diana Hellestrae, and Freshman Felicia Bakshy.

Two runners, Telengater and Campbell qualified for Sectionals, after they finished 4 and 7 respectively at Regionals. However, the Indians failed to qualify runners to the State Meet, which has never happened before. However, with the talent of returning Campbell, coupled with the efforts of the rest of the Indians, Coach Sloan and her runners are sure to "rebuild" and once again triumph at State.

Girls Swimming

Hard work and dedication were two main factors that helped the girls' swim season become profitable. Every member of the team worked hard and did her part. Though the wins were few, everyone stuck together and improved tremendously; times dropped and spirits were lifted. The co-captains Jenny Cohen and Sabine Plonus broke many records, and were a good example of how hard work pays off. The team's overall record was two wins and ten losses. They placed fifth in Conference, and seventh in Districts. Two of the five divers not only dove but also swam competitively. Jacqueline Plonus, and Karina Doyle did a great job in the Medly and 400 free relays; along with some individual events such as the 50 yard freestyle, and the 100 yard breast stroke. The other three divers, Karen Palin, Julie Disselhorst and Diane Rubenstein spent all their free time working for those perfect dives. The one that had them all baffled was the reverse. But in time they all perfected it.

Volleyball

"Our young prospects pulled through with great esteem," said head coach, Jean Yunker. The Girls Volleyball Team showed great post-season play to advance to the third round in the regional meet. Yunker also said, "It was one step further than last year and maybe we will go further still in the future." The captain of the team was Senior Lois Mayer. The teams conference record was 0-5, and the overall record was a wurprising 3-9. One of Yunker's biggest thrills occurred at the regional meet to conclude the season. Boys Basketball

Despite a 4-17 record the varsity did at times shine. The most exciting game was a conference battle with Maine East. Senior Cory Binstock's shot at the fourth quarter buzzer sent the game into overtime. Junior Joey Rodgers hit two free throws to put the Indians ahead and senior Lee Schaps connected on two more from the charity stripe to ice a 62-58 victory. The varsity also hoped for a regional title in the state tournament.

The club's Most Valuable Player was six foot senior Greg Englehardt. "Swampy" led the squad in scoring (14ppg) and rebounding (6rpg). Engel's offensive moves faked many a defender into the popcorn machine, and he easily led the league in three point opportunities. The only way Greg could explain his success was, "Some nights I just felt good, and everything I shot went through the hoop."

Sophomore Lou Atsaves added to the potency of the offense by chipping in thirteen points a game. "Porky's" weapons were a lethal outside shot and a smooth running-one-hander when he drove to the bucket. Senior co-captain Cory Binstock (7ppg) also had a good touch from the perimeter. "Marty's" 46% from the field topped the club.

On defense the other senior co-captain Lawrence Asher led a tenacious bunch. "Scary" stole the ball often and took many charges. Coach Capitani remarked, "We stress playing tough defense, and every year we have a defensive specialist. This year it was Larry." Larry also contributed to the offense with 7 points and 4 assists per game.

The junior varsity behind high scorers Tony "Beef" Konsewicz and Bill Terpinas were 11-5 with 4 games to play. Their 5-3 conference record kept them in the race for the league championship. Coach Kiesel commented, "Winning a conference championship at any level is good for the program."

Boys Basketball

"S" is for sophomores and "S" is for spirit too, and spirit is what the sophomore basketball team had. With coach Jerry Miner working the boys hard every day after school and giving them encouragement, the boys went "all out" and did the best they could. They were a team to which everyone contributed. There had been a lot of changes since they were freshmen, and all for the better. Although this season the team wasn't on a winning streak, the future looks very promising. Just as coach Miner said, "These guys have come a long way."

"The Freshman "A" basketball team discovered that a high school team requires more than individual skill and individual practice. "These kids will only get better." says coach Stuart. The team had a disappointing season (3-10), but some players who proved their ability to contribute to future teams are, top scorer Mike Cristante, and guard Kreig Izanstark. Only after they learn to intergrate their individual skills will they produce a super, winning team.

The Freshman "B" basketball team had a very disappointing season. The team had 4 wins and 12 losses. The main reason is, they lacked basic skills, such as shooting, passing, and dribbling. But with coach Casten working them hard and showing them the ropes, the team improved a lot. Guys like center Robby Acheatal, guard John Woo and forward Andy Goecke led the team to their victories. After a rigorious season, the Freshman "B"s have now developed the fundamentals.

Bowling

"We progressed greatly over the season, and our improvement was obvious," claims head bowling coach Sue Hoffman. The team finished second in conference this season and was able to compete in the state tournament for the third year in a row. Hoffman identified her most improved players as Paige Pawelek and Karen Hedberg. Other top varsity bowlers consisted of Renee Menini, Kim Kouzoures, and Lynn Schildgen. Junior Lisa Downey claims, "This has been the best team of my three years on the varsity team." Hoffman concludes by saying, "This season we tried our best, and the girls bowled up to their capabilities."

The swim team, under the coaching of Don Larson, Nick Whelan and Barb Sapoznik, improved greatly on all levels. They practiced hard every day from 6 - 7 a.m. and 3 - 5 p.m., and proved their dedication. The varsity level performed well, even with the loss of last year's record-breaking seniors. The junior varsity level had a record of seven wins, four losses, and one tie.

The freshman level did remarkably better than the other levels with an impressing record of eight wins and one loss. These swimmers will be the nucleus of the team in the future. They have shown much improvement and dedication.

Wrestling

The Niles West Varsity Wrestling Team had a slight setback from the 1981-1982 season. Even with an 18-4 record, the Indians finished a very disappointing second in conference. This was the first time in ten years that Head Coach Fred Richardi did not win the conference crown. "This was mainly due to injuries on the team," Richardi mentioned.

The team was led by senior captains Steve Brooks and Tom McCarthy. Other outstanding wrestlers included seniors Mark Cohen, Jim Carnow, Alex Govis and Tim Abed. Junior Bill LaManna returned to the varsity team just in time for the state tournament after suffering from an illness early in the season. LaManna at 105 lbs., Brooks at 126 lbs. and McCarthy at 138 lbs. won their respective regional titles.With the help of Govis and sophomores Brad Kolar and Mike Lochner, the tribe won the regional contest with all six advancing to sectionals.

At the sectional meet, LaManna and McCarthy captured second place finishes to advance to the IHSA State Finals. Brooks, who faced the defending 126 lb. champion in a very early match, just missed advancing by placing fourth.

The tribe's future looks secure as LaManna improves with his second experience at state and such state hopefuls Kolar and Lochner returning next year.

Wrestling

The sophomore wrestling team struggled to success. Some outstanding wrestlers were Matt Unterberger, Mike Lochner, and Brad Kolar. Both Mike Lochner and Brad Kolar wrestled in the district meet and were very hopeful of earning the title. The team's record at the end of the season was 18 and 4, and M. Unterberger, M. Lochner, and B. Kolar, who were sophomores, wrestling varsity, were very instrumental in attaining this record. The sophomores had terrific spirit throughout the season.

"The freshman wrestling team did an outstanding job," stated Coach Porter. The freshmen ended with an overall record of 18 and 3. They improved greatly as the season went on, starting out just average and ending up fantastic. One of the main reasons for this improvement was the practice they experienced with the varsity team. The team came in first in one tournament and took third in another. They dominated the conference tournament with champions Scott Binstock, Dean Bravos, Eric Nutting, Doug St.Marie, and Jim Angelakos. The freshman team was very dedicated to improvement in skills, working as a team, and to their coach, Bob Porter, who helped throughout the season. In the words of fellow coach Richardi, "Bob Porter did a super job."

Girls Basketball

For the first time since the 1976 season, the Girls' Basketball team failed to capture the conference championship. However, fifth year coach Gene Earl was still optimistic about this season, and looks forward to the future.

Earl felt, "Even though we lost a lot of games this season, the players worked hard, showed their dedication to basketball and wanted to win."

While the club was a talented one, they lacked the playing experience of past squads. This season, Junior guard Nancy Zoros was the only returning starter. With only three graduating seniors on the team, Cindy Atsaves, Lois Mayer and Becky Weinstein, Earl believes, "We're going to have a very good team next year."

Highlights for the girls this season included conference victories over Maine South and New Trier, defeating Fremd in the semifinals at the Evanston tournament and the play of Zoros, the team's leading scorer and an All-Conference selection.

Girls Basketball

Playing against good competition and often at a height disadvantage, the J.V. Freshman Girls Basketball teams weren't as successful as past teams.

The J.V. team finished with an 8-12 record. Under the coaching of Marvin Klebba, these girls acquired skills and know-how that are invaluable. Key players were Regina Shemroske, and Carol Billisits.

The Freshman team coached by Jean Yunker finished their season with a 3-12 record. Two wins were against Evanston and the third by Maine South. However, this seasons competition served to give the Indians new insight into the fundamentals and techniques of basketball that will be needed for future success.

Girls Gymnastics

Progress, discipline and determination are a few of the words that would best describe the '82-'83 Gymnastic Team. From the start of the season the Varsity team was plagued with injuries. Despite this hindrance, the girls managed to keep their spirits up and give 100%. Though they started out the season with only 112 points, the Varsity ended their last meet with a respectable 129.55 points. Leading the team to their proud finish were high scorers Jaqueline Plonus and Captain Sheryl Barasch. Both girls gave consistent performances meet after meet and provided a solid base for the team to work with and expand upon. Exciting moments included Sheryl's 1st place conference vault finish and Jaqueline's 1st place District finish on bars.

The J.V. team showed potential throughout the season as well. The team performed well and slowly pushed their scores up each meet. Freshmen Lori Aronson and Karen Palin proved to be skilled enough to compete with the J.V. team. The J.V. gymnasts gained added experience, filling in at Varsity spots when needed.

The freshman team showed a lot of personality throughout the competitive season, remaining vibrant and full of "spunk" at all times. Hard work and perseverance paid off as the team ended the year with a 6-2 record. The team was led by outstanding performers Sherri Furman, Heather Ross and Karina Doyle. Next year at the J.V. level the girls will undoubtedly remain successful and spirited.

Boys Tennis

"Despite tough competition and a small turnout, the tennis team had a respectable season," commented Senior Jeff Nimz. Returning varsity players Jeff Joss, Steve Miller, Tom Russo, and Mike Wilson formed the nucleus of the team. Coach Sacks, who termed the season "A step in the right direction," was proud of several events that highlighted the year. The Miller-Wilson doubles team consistently came up with the big victories as they compiled a four year composite record of 52-7. The Indians performed strongly in several key invitationals: Niles West, Rockford, and Township Quad. Coach Sacks was also pleased with the remarkable improvement of Seniors Tom Russo and Steve Dorfman.

Several talented players who competed last year as freshmen formed the basis of a strong sophomore team. They included Rich Miller, Ken Rosen, and Eliot Schenker. Coach Winans believes that the experience these boys gained on the sophomore level will benefit next year's team.

Boys Gymnastics

"Rebuilding" sums up the 1983 Niles West Boys Gymnastics Team. After losing the 1982 pommel horse champion, the team was forced to depend on Seniors Steve Klein, Scott Rowe, and Jeff Gilbert, and Juniors Dave Lisco, Mike Weindling, Ross and Steve Erlebacher, Tony Avella and Mark Musick. According to captain Steve Klein, "We didn't have any superstars so we were forced to depend on our entire team. In fact, if it were not for the few superstars that many other schools had, we could have had a winning season."

Further evidence of the reconstruction process was the freshmen team. Finishing the season undefeated they leave a bright outlook for varsity teams in years to come. Another innovation this year was the aquisituion of Coach Jodi Nebbia to handle the floor and vault apparatuses. According to head Coach John Burkel, "We have finally established a positive working atmosphere in the gymnastics area which should lead to positive results in the future."

Although the 1983 season was not a winning one, it was a necessary step in returning the Niles West Boys Gymnastics Team to a powerhouse in the district.

Baseball

During his third year as head coach, George Galla made steady and much needed improvements in the baseball program. After adding an electronic scoreboard, fencing the entire field, and installing a warning track, the Niles West field will be, without a doubt, "the best in the conference, and above all, one of the best in the state," exclaims coach Galla.

Keys to this years success were Seniors Pete Joseph, Cory Binstock, Brian Weinberg, and Mike Dahm. With Joseph, Binstock and Weinberg on the mound and Dahm in the field, success was inevitable.

Track And Field

Although the Boys' Varsity Track Team was small in number, they were large on talent. Coach Pat Savage focused on individual talent, mainly seniors Don Hennessey and Jim Adam.

Hennessey ran the hurdles, dashes and the long jump and was one of Savage's "jack of all trades". The high hurdles however, were his specialty. The field events were lead by Adam, who tossed the shot put and discus.

Other reliable athletes included seniors Alex Paul, Chris Pawlowski and Henry Meinke in the longer distances and Matt Fillippini in the medium distances.

Girls Track And Field

The Girls Track Team had depth, dedication and a lot of talent. With four year varsity members Patty Doles, Patty O'Boyle, Susie Rosenblum, Kathy Sanders and Robin Telengater leading the field, coach Jean Armour had high hopes for individual conference, regional and state triumphs.

Seniors Patty Doles lead the long distance pack with junior Jennie Campbell. Coming off a fantastic cross country season, the duo showed diversity as they ran events from a quarter mile to two miles in distance.

High jumping star Patty O'Boyle broke record after record as she reached new heights. By the first meet of the indoor season, O'Boyle cleared 5'2" and established herself as a definite state contender. O'Boyle also experimented with the hurdles and often ran a leg of the winning mile relay.

Senior Kathy Sanders led the discus throweres with her four years of experience. Sanders, along with junior Michelle Dolce in the shot put threw well consistantly.

Veterans Susie Rosenblum and Robin Telengater ruled the track as they ran the relays, short distances and medium distances. The dynamic duo posed a double threat in the quarter and half mile races and often times ran as part of a top notch mile relay team. Other sprinters included juniors Desiree Abelkis, Tamara Uglinica and sophomore Karen Rosinski. Abelkis concentrated on the hurdles while Uglinica added the much needed spark in the short relays.

Other quality athletes included seniors Karen Hedberg in both the shot and discus and Ellen Sprague, who assisted in the relays and sprints. Looking ahead, Armour notes Felicia Bakshy, Linda Kim, Dawn Repa and Lynn Sonkin as rising stars.

Girls Soccer

The Girls' Soccer Team competed in their second season as a varsity sport. Under the direction of Coach Joe Brennan, the tribe worked for one common goal - to place well at the Niles West State Tourney. With 16 games in the regular season, the team improved with each confrontation.

"Girls' soccer has definitely been growing," senior Martha Ha mentioned. "More and more high schools not only have a girls' soccer team, but they have good teams and programs," she concluded.

The team had many returning lettermen with experience on the soccer field. Key games were played against Evanston, St. Charles and New Trier.

The J.V. Team was led by Coach Leanne Heeren, who drilled the girls on basic fundamentals. With this sound background, the Indians are sure to continue their success in girls' soccer.

Senior Class Cabinet

The Senior Cabinet enjoyed a very charitable year. With sponsor Roger Stein, the 35 seniors dedicated themselves to helping those less fortunate than themselves.

For the first time, the seniors began a year long project with Ray Newman at a local YMCA. The program, which Newman has been conducting for the past 29 years, works with children with handicaps and learning disabilities. Twice a week, seniors helped Newman and "his kids". The seniors helped the children on a one-to-one basis to improve their coordination, balance, self-confidence and attention span. This was done in hour long sessions concentrating on warm-up exercises, balance work, tumbling and coordination training.

"They may be slow," Senior Julie Mamett explained, "but they like to have fun and they need love."

Another major charity project was the annual Hull House Christmas Party. The seniors raised over $100 in order to buy each child a special present. For many of the underprivileged children, the present they received at the party was the only Christmas present they received. The seniors played games, sang carols, and enjoyed the Christmas spirit. After a year of charity work, the seniors learned the true meaning of giving.

The Junior Cabinet consisted of volunteers from the class of '84. Participation had greatly increased due to the change in the system of electing officers. Last June, an all-school election was held to pick a president and vice-president for the Sophomore, Junior, and Senior Classes. The officers elected for the Junior Class were Sally Cohen, President, and Tony Konsewicz, Vice-President.

"Our main objective was to plan and organize the annual Junior-Senior Prom," stated Cohen. Since a project like this is so expensive, many fund raisers were held throughout the year, such as a jumbo cookie sale, and numerous candy sales. Jodi Bergman commented, "We all worked really well and hard together to get the job done, and it sure showed!"

Top to bottom: To make sure everything will run smoothly, prom ideas are planned early in the school year. The Junior Cabinet informally discusses their upcoming giant cookie sale.

Sophomore Class Cabinet

The Sophomore Cabinet had many activities which benefited the class of '85. President, Lori Tecktiel and Vice-President, Yun Kim led the class cabinet to a very profitable year. Ms. Corombos, sponsor, was very helpful in the planning and the actual production of the activities. Among the many activities sponsored by the cabinet were the Frosh-Soph mixer, sales of baked goods, candy bars, the Great America tickets, and the Sophomore Volleyball Tournament. These activities and many more were very successful.

Sophomore, Julie Keller said, "The Sophomore Class Cabinet was a very worthwhile club to be involved in. It was great to see the Class of '85 get involved in the many interesting events. I hope, in the years to come more students will join class cabinets. It was a great experience. Best of all, the Class of '85 is distinguished for its enthusiasm and spirit."

Freshman Class Cabinet

The Freshman Class Cabinet showed their spirit in '82-'83. The cabinet was led by President Mark Poulakadis and Vice-President Jon Lisco.

Poulakadis said, "The cabinet has a lot of potential and we hope that in the years to come more people will join class cabinet." One of the events the Freshman Cabinet participated in was the spirit panel contest for the '82 homecoming. Their panel was extremely creative and unique. Miss Nash, sponsor of the cabinet, was very helpful in constructing the panel and supportive in the planning of events. "Mark and Jon did a fine job in the Freshman Cabinet and hope that in the years to come they can be more involved in the student senate. The cabinet has a lot more spirit to show in the years to come," said Nash.

American Field Service

American Field Service is an organization designed to promote understanding of foreign countries.

The Niles West chapter of AFS had a productive year that was a lot of fun. This group has participated in many activities including many different types of parties, honorary dinners, and even going to a Spanish restaurant to get a real taste of life in Spanish countries. They have also held various fundraisers throughout the year including a sucker and a candy cane sale. All profits from these ventures were used to aid Niles West students who wish to participate in study programs abroad.

The Niles West Americans Abroad student this past summer was Chris Steele. After going through many interviews, Chris was chosen as an exchange student to Chile.

Niles West was honored this year by hosting Marcele Oliviera from Brazil. Marcele comments, "The AFS program is very worthwhile, I have learned so much and wish everyone could have the experience which I have had."

National Honor Society

The National Honor Society, N.H.S., is a community service-based organization whose purpose is to create enthusiasm for learning, stimulate desire to render service, promote leadership, and encourage the development of character in all students of Niles West. Membership is based on scholarship, leadership, service, and character. Each candidate must be a junior or senior, receive ten recommendations from faculty members, be involved in at least two school sponsored activities, and have a grade point average of at least 3.4

This year's N.H.S. has undertaken more activities than in all previous years. In mid-October the society sponsored a Crusade of Mercy campaign throughout the entire school and was successful in raising a substantial amount of money for the United Way. A school-wide holiday canned Food and Toy Drive was also held; the proceeds were donated to need charities. In addition to initiating many other activities which served the community, the club also visited a number of senior citizens' homes. Officers were; Helena Gabriel-president, Steve Miller-vice president, Van Stamos-secretary, Michelle Haddon-treasurer.

Key Club

Welcome to the world of Key Club International, a 100,000-member high school service organization with chapters in nine countries in North America. The objective of Key Club is to work together to prepare for useful citizenship by serving the school and community. Emphasis is placed, as the introductory brochure proclaims, on bringing "primacy to the human and spiritual, rather than to the material values of life." Summarizes President Michael Korey: "It's a community service group for people who sincerely care about others."

On the local level, the Niles Township Key Club is jointly sponsored by Niles North and Niles West High Schools and by the Skokie Valley Chapter of Kiwanis International. In the words of Vice-president Gail Perlman, "We coordinate a great variety of programs — from organizing school blood drives to hosting holiday parties for retarded children, from planning the community-wide distribution of emergency medical information to individually helping a severely handicapped young man." Adds Korey: "We're always willing to work with anyone needing assistance, be it special personal care or organizational fundraising. Just reach us through either of our sponsors . . . Ray Carr at West or Dan Henrick at North. We'll be happy to help."

To the audience, a show is just a form of entertainment. To the performers it's not. For the Orchesis Dance Company a show is a lot of hard work. Hard work is put into every practice and show they perform. President Shari Watts and Vice-President Jill Rappin, along with other members of the Company, choreograph all of the dances and put together the costumes for months.

One of the main reasons for the show's great success was the practice put into it. Everyday from three to six o'clock the girls practiced for the school show, and then for their tour in Montreal. Besides these two performances, the Company performed for several junior high schools.

Vice-President Junior Jill Rappin comments, "I'm really proud of the way we've performed. I think the fact that we all get along so well added to our success. All of our hard work has paid off."

N Club

The Niles West Lettermen's Club is an organization consisting of male and female athletes who have earned Varsity letters. N-Club promotes school spirit and endeavors to involve all students in supporting West's athletic teams and activities.

The 1982-83 club, under the sponsorship of Brian Katzman, was headed by officers Tom Burke, President; Mike Dahm, Vice-President; Ken LeComte, Treasurer; Lisa Shapiro, Secretary, and Mike Mandell, Sergeant at Arms.

A few of the activities N-Club planned was a bumper sticker sale and they also ran a concession stand for the girls' home basketball games.

Members went Christmas caroling at local nursing homes, ran an all-school volleyball tournament and presented three honorary memberships to deserving individuals.

The revival of the N-Club vs Faculty Basketball Game continued for its second year.

As a service and promotional organization, N-Club has earned the praise and respect of both administration and students.

Ever wonder who those girls with red and white saddle shoes are? Well, wonder no longer. They're all a part of the Niles West Pom Pon Squad. Besides promoting school spirit, the squad performed at half time of all home football and basketball games. Their high kicks, pointed toes, and everlasting smiles were just a few reasons for the success of the squad.

Under the leadership of Susie Kim and Randi Levinson, the twenty-four girls practiced for two hours a day, five days a week. They also attended a special summer camp at Whitewater, Wisconsin. It can be said all the work, effort, and especially cooperation among the squad members paid off.

"We're very proud of our squad. We all work very well together, which can be seen in the way we perform," comments captains Randi and Susie.

Top to Bottom: Completing one of their routines, the Pom Pon Squad entertains the fans at the half time of the New Trier game. Many hours of practice go into the making of a perfect routine. Senior co-captains Randi Levinson and Susie Kim are responsible for organizing the squad, arranging for practices, and making sure things get done right.

Cheer-leaders

The varsity, sophomore, and freshman cheerleaders worked hard to spark a lot of school spirit. They practiced twice a week to perfect their performance. Although the teams didn't always win, the cheerleaders never lost hope, and always showed their enthusiasm and dedication throughout all the games.

The varsity cheerleaders practiced hard over the summer, when they attended a U.S.C.A. cheerleading camp in DeKalb, Illinois. The squad had a lot of spirit that was contagious to many fans. The cheerleaders encouraged the crowd to learn the cheers, and to cheer along with them.

The sophomore squad sparked a lot of sophomore spirit that had been lacking their freshman year. Their enthusiasm and spirit showed at every game. They were very dedicated over the summer, practicing four days a week. They too attended U.S.C.A. cheerleading camp.

The freshman cheerleaders have been busy working hard all year on technique and becoming more experienced cheerleaders. They looked forward to every home game throughout the year, because of the many supporters that came to help them cheer their teams on.

French Club

This year was an enjoyable one for members of the French Club, sponsored by Mrs. Eva Masur. Their goal was to learn more about French culture, and this goal was attained through visits to the Art Institute, French operas, theatre performances, and restaurants. The club also held a French pot-luck dinner. Members of the board, under the coordination of Elisa Leberis, were Lisa Blok, Alan Dayan, Rosanne Friedman, and Mira Iskander.

German Club

The German Club is an organization that promotes student exchange between Germany and Niles west. This club consisted of fifty-five members which worked together to raise funds. Cook books were sold by the German Club members and also by German students as a fund raiser. President Helena Gabriel stated, "Our goal is to allow members to experience German cultures." A Christmas party is held annually which allows members to decorate a Christmas tree and show off their German cooking. This club also visited German pastry shops and occasionally played German soccer games over the weekend. On April 23 the German Club attended American Fest 300 held at Riverside High School to commemorate the first German settlers in America. The outcome of German Club was tremendous, and their motto was "Wir lieben Deutsch!" which means "We love German!" Students are urged to join the German Club next year and participate in this new and pleasurable activity.

Spanish Club

For the last two years, Mrs. Lopez, one of the Spanish teachers here at Niles West, has been the sponsor of the Spanish Club. Tom LaBelle presided as president and junior Jose Bejar was the vice-president. Many important events took place. The club had a bake sale and also went to two restaurants which served Spanish and Mexican food. They also went to a day care center with mostly Spanish children. They brought them candy and toys to play with all day. The students had a fantastic time with the children. The Spanish Club also offered a scholarship for a student to go to a Full Immersion weekend at George Williams College. The weekend consisted of singing, dancing, studying and talking only in Spanish.

In December, they had a Spanish fiesta with different Spanish foods. The Spanish Club had a fun and interesting year.

Students For Israel

The Students For Israel Club meets twice a month and strives to educate students in the current events of Israel, its culture and geography. It is sponsored by Mr. Miron and guided by President Karen Silverblatt, Co President Ira Oliff, Vice President Steven Korol, Secretary-Treasurer Rosanne Friedman, and Secretary of Culture Jeff Deer. The club sponsors several events throughout the year. These include interesting Jewish speakers and slide shows of trips to Israel. This year they even had a Hanukkah party that was very authentic. It included the lighting of the menorah, dreidle games, latkes with applesauce, and even, kosher "dunkin donuts". Other gatherings included taking a trip to an Israeli restaurant, and seeing the movie, "The Troops", an Israeli movie that has Hebrew dialogue with English subtitles. This movie could be interpreted as an Israeli "Hair". Students do not have to be in a Hebrew class to join this club, as it is open to all.

Hellenic Club

The Hellenic Club, sponsored by Mr. Thomas and Mrs. Panos of Niles North, has been in progress for two years now. The club has begun to accomplish its goals, and the membership has greatly increased since last year.

It has provided cultural enrichment for the members by the careful planning of dinners at Greek restaurants, and the many other activities outside of school. Within the school, bake sales, bike-a-thons, and a drive for a Children's Memorial Hospital Rehabilitation Center were successful fund raising events completed to enhance their knowledge of Greek culture, and to benefit charity. Evidence of the warm nature of the Hellenes was shown by their Christmas caroling at the Hollywood House, a home for the elderly.

The club is comprised of not only students and teachers but Principal Dr. Mannos who takes an active interest in the Hellenic Club. Officers were Georgette Bartholomew, President, Craig Panos, Vice-President, Estelle Angeletos, Secretary, Tina Venetos, Treasurer, and Van Stamos, Activities Chairman.

Spectrum

"I can't find a cropper," was frequently heard in room 103. Most people do not know that a cropper is used to eliminate certain details in a picture. Cropping pictures, which determines their size in print, is one phase in the production of a yearbook. Other elements include: drawing layouts, writing copy and captions, taking pictures, and putting all these functions in their final form.

For the first time this year, there were two yearbook classes. However separate, the classes were both working to produce one book. When it came to identifying people in pictures, the large staff was an asset, but there were some periods of chaos!

As Editor-In-Chief, Maria Leberis co-ordinated the overall production of the yearbook. Other editors included: Ray Chao, assistant editor; Ellen Havdala, photography; Holly Gershanov, Freshmen; Erica Stone, Sophomores; Devra Lipsky, Juniors; Lisa Shapiro, Seniors; Steve Miller, faculty; Karen Schwartz, clubs; Van Stamos, sports; Tami Weitzman, special events. Angela Graham and Jerry Orr were the sponsors.

West Word

The *West Word* decided to try something new with its staff. The responsibility of Editor-in-Chief was shared by two people, Debra Havdala and Brenda Moss. "The fact that Debbie and I had varied ideas and opinions about many issues turned out to be beneficial. We put our ideas together to produce a stronger, more appealing paper for all students," Brenda said.

The page editors were Andy Much and Lisa Shapiro, News Editors; Julie Mamett and Arbella Odishoo, Editorial Directors; Ray Chao, Features Editor; Joel Fink, Sports Editor; and Beth Shartiag, Photography Editor.

To learn about ideas for improving the paper, some staff members attended summer journalism workshops and the whole staff attended a one day seminar at the University of Wisconsin at Whitewater.

Some of the articles that highlighted the year were an editorial on the Tylenol scare, a sports injury story, and Ray Chao's column, **etc.**

Thespians

Niles West Thespians took part in projects involving many high school age students. This year they presented several types of theatre.

The Childrens Theatre, "The Red Shoes," which was a ballet, "The Wiz" a jazz production, Pow Wow which was student directed theatre, and then "Plaza Suite" directed by Mr. Batts.

The directors were Robert Johnson, Cynthia Philbin, and James Batts. The president of this club was Mike Lanski. Also in the "Red Shoes" the technical directors were Mike Lansky, Seth Erlbacher and Bruce Clever.

This group had fund raisers in which they sold popcorn, bake sales, and had two carwashes. Their goal for this summer is to raise enough money to go to The International Theatre Arts Conference in Muncie, Indiana which is held annually.

Technical Service Crew

The Technical Services Club is in-charge of all of the technical aspects in the Niles West theatre department.

The responsibilities of the club include building sets and providing lighting and sound for all activities in the auditorium. These duties include assemblies, and outside groups that rent the auditorium, as well as school productions.

Senior Mike Lanski states, "Students don't realize all of the effort put in by the club for each production."

In preparation for each play, the members of the club, under the supervision of Miss Philbin, stay after school each day from 2:45 until 6:00. They also come to school on Saturday. When the plays are over the club is responsible for taking apart the sets.

The band provides a good opportunity for students to show their talent and abilities, not just in school but outside, as well. The band accomplished a great deal throughout the year.

The marching band played at all of the home football games, and their spirit and enthusiasm were a big help to the football team. The concert band played at the home basketball games, and they did a fine job, playing and encouraging the team with their music. The students worked hard with fund raisers to sell candy bars, and they had a "Pops" Dinner which consisted of an authentic Italian dinner and band music throughout the evening. All this went to raise money for the students to go on tour to Montreal for an exciting five days. The bands were also involved in a Memorial Day Parade around Skokie, Lincolnwood, and Morton Grove, and in the LaGrange Pet Parade on June 4th, which was telecast on Channel 9. Another event took place was the Jr. High Festival, where the Jr. High band students had a chance to play with our band. They accompanied Pow Wow, Orchesis dance show, and the musical, "The Wiz".

Marla Friedman reflects, "It is because of the band that I have had many great experiences. For instance, I have traveled, and made good friendships, the band has really added a lot more meaning to high school for me."

Orchestra

The Concert Orchestra kept quite busy throughout the year with various activities. Orchestra members performed at Open House, the Holiday Festival, the Pops Dinner Concert sponsored by the Niles West Music Parents Association, the May Festival and the exclusive fall and spring concerts. In addition, members participated in competition such as the IHSA Solo Ensemble Contest and auditions for the IMEA District and All-State Orchestras. Fundraisers were held periodically to enable orchestra members to participate in the music departments annual tour, held this year in Montreal. The purpose of promoting students' musical development through experience in rehearsing, cooperating, and performing was fulfilled very effectively. Orchestra Board Members were Elisa Leberis, President, Georgette Bartholomew, Vice-President, Connie Anderson, Secretary, and Ross Erlebacher, Treasurer.

Vivace

Vivace is a group of talented female students chosen from concert choir to sing light pop tunes. Vivace sings at all festivals and at the neighboring junior high schools. This group of singing dancers meets once a week to learn and practice choreography. The sponsor of this club was Hugh Magee.

Westones

The Westones, known also as the "Swing Choir" of Niles West, had a very busy year. In March they went on tour to Montreal with the band. They also appeared at Boston Pops' Dinner on February 26th. The club performed as well, at Lincoln Jr. High and the Holiday Festival reception. The choir practiced Wednesday and Friday after school; their sponsor was Mr. McGee. They performed song and dance routines and most of the choreography was designed by Gloria Camilli.

One of their favorite numbers was "Boogie Woogie Bugle Boy", which they performed in Montreal.

Concert Choir

Concert Choir was off to a great start this year with officers, Sari Rubin, President; Cindy Schwartz, Vice President; Elissa Schwartz, Secretary; Jon Soble and Neil Tobin, Co-treasurers. Throughout the year in MO8 one would find Mr. Hugh McGee and his students working diligently to give a superb performance, with the Holiday Festival, which was the first given. This included students from Lincoln Junior High School singing selections from, "The Wiz". Mrs. Barbara Flemming, from Lincoln Junior High, accompanied the choir at the piano.

Along with this event was the annual cookie baking contest. The winners were, in first, Amy Antman, in second, Julie Kellman, and in third, Kathy Feingold. Mr. Hugh McGee, a dedicated man, leaves Niles West at the end of the year. He has helped in training voices and has encouraged many students to seek gratifying careers in music.

Mr. McGee, the Concert Choir of 1982-1983 would like to thank you for all of your hard work, patience and talent that you've been able to share with others for the past thirty-two years!

A Cappella

A Cappella is an out growth of concert choir and is made up of a group of talented students who sing without the aid of instrumental accompaniment. Madrigals of the fifteenth and sixteenth centuries are the subject of their work. In March A Cappella performed in Elk Grove Village at a solo ensemble. Two of the other main events were the winter Holiday and May Music Festivals.

Art is a very rewarding hobby. A club which gives art-oriented students time to express their creativity in a relaxed atmosphere is Art Council. The members engage in fun-filled and exciting activities, both socially and artistically stimulating. When the club was just starting out, a group of talented artists came together and formed Art Council. Together they raised money, visited art museums and participated in art-related projects, because the purpose of Art Council is to stimulate the growth of art by the members.

The club met on Wednesdays. There were about twenty-five students involved in Art Council, of which Mr. Davis was the sponsor. On Wednesdays they discussed large projects that they were going to undertake. After they knew what they were going to do, they would work in small groups. At these times they would tackle small projects for fun.

As for big projects, they painted the bottom of the pool here at school. They also finished up painting room 111. It was started last year and finished this year. On the pool they painted an Indian and in room 111 they painted "stills" from movie reels such as Charlie Chaplin scenes. Art Council also won first place for their spirit panel at Homecoming. "I really enjoy Art Council; it's a lot of fun!" said Todd Payuk, member of Art Council.

Top to bottom: Working on one of their many projects, Senior Debbie Rose applies the finishing touches. By painting "the Duke", Ken Lund gives the film study room the movie look.

Science Fiction Club

The Science Fiction Fantasy Club had a very exotic, bizzare year of searching for treasures, slaying dragons and avoiding evil wizards and goblins. Under the supervision of Dungeon Master Mitch Gittelman, the small, but mighty club challenged the elements of evil forces as they traveled to the unknown world of Dungeons and Dragons, a popular Sci-fi imagination game. According to Gittelman, the club spent many hours in the underground world, "exploring, probing, seeking and searching." But the club also ventured in to the real world, with excursions to other schools for tournements and an occasional visit to a science fiction convention. The members also exchanged sci-fi books and magazines.

Leaders

For those girls who excel in Physical Education, a Leaders Gym program was offered. The purpose of Leaders was to develop responsibility and to promote teamwork and leadership. Leaders provided an opportunity for sophomores, juniors, and seniors to participate in a specialized gym class and also teach other classes. By teaching other classes the girls are given a chance to develop techniques for working with individuals and groups.

"Leading also gives the girls a chance to express themselves," said Miss Lee Heeren, Girls' Athletic Coordinator. The Leaders "express themselves" once each week when they participated in Fun Fridays. Every Friday the girls got a break from their regular class activity and played different games. The games were arranged by the different class levels and sometimes by the instructors. The Leaders enjoyed their gym class for many reasons. Senior Leader Caryn Eberhart liked leading because, "You become closer to your class than you would in regular P.E. because you're with the same girls for three years."

"Leading gives me a lot of personal satisfaction. I feel great knowing that I've helped some one learn a new skill," said Junior Mary Holm.

Guard Club

Guard Club is an organization that consisted of teenagers. They spent their Saturday mornings teaching elemenary students how to swim. Barb Sopoznik was in charge. She organized all the groups, and got everyone together. "They are all great teachers, and do a good job communicating with the children," stated Sopoznik. Barb felt that becoming involved with the younger kids may help them in the future. One of the members of the Guard Club was Mark Luncsford, who said, "I enjoy working with elementary school students. I'd be lost without my Saturday morning workout."

Members of the Timers Club await the gun.

Timers Club

The timers club taught students to time the swimmers at home swim meets. They also kept scores of the divers. They announce who is up next to dive or swim and tell the scores. Sharon Brabec, a member of the girls varsity swim team said, "I enjoyed being on the timers club during the boys swim season because it made my swim season last longer." This club is very important to the swim team because accurate timing can make all the difference whether a team wins or loses.

Math Team

The problem confronts you: "Find the integer x which satisfies $10^x < \frac{1}{2} \cdot \frac{3}{4} \cdot \frac{5}{6} \cdot \frac{7}{8} \cdot \ldots \cdot \frac{99}{100} < 10^{x+1}$."* You stare at it blankly for several moments (perhaps several hours!) until a flash of inspiration strikes you. Aha, you reason, let a be the middle term above and define b as the product $\frac{2}{3} \cdot \frac{4}{5} \cdot \frac{6}{7} \cdot \frac{8}{9} \cdot \ldots \cdot \frac{98}{99}$. Then, by cancellation, $ab = \frac{1}{100}$. Since a and b are nearly equal, the difficulty now is to determine which is less and which greater than $\frac{1}{10}$. Comparing terms, you conclude that a b, so that $\frac{1}{100} = 10^{-2}$ a $10^{-1} = \frac{1}{10}$. Therefore, $x = -2$.

Such innovative solutions are frequently required by the Math Team members as they attempt to solve the unusual problems encountered on a variety of contests. Despite the challenge, the team has performed exceptionally well at the local, state, and national levels, ranking first in Illinois and in the ninety-ninth percentile in the country.

The team is jointly coached by Dennis Filliman, Bob Murphy, and Don Field. Officers for this year have been Michael Korey (president), Elisa Leberis (vice-president), Tom Svrcek (secretary), and Steve Erlebacher (treasurer).

Computer Club

The computer club attended many local competitions that were held at various schools. When competing against other schools, depending on how are club members' computer skills they are placed into two-man teams. After this is done, math programs are given to the teams. Whoever figures out the program correctly first, is the winner.

Members can't play games such as Space Invaders, Asteroids, etc. on the computers because it is illegal to copy them. They have to make up their own. This year's president was Junior Robert Fremont. The sponsor of the Club was Mr. Stanley Weitzenfeld, who says, "The purpose of the Computer Club is to give students a chance to get together and share ideas about computers."

Debate Team

Debate is an advocacy activity which involves teams of two people who discuss both sides of a question. The debate team attended many tournaments throughout the state of Illinois. The varsity team of David Glassner and Jerry Kang had the unique opportunity to be one of six teams to attend the Southern Bell Forum Debate tournament held in Nashville, Tennessee. The 1982-83 debate question was "Resolved: The United States should significantly curtail its arms sales to other countries."

The goals of the debate team were to increase the students' skills in research, organization and speaking style. The specific goals of Niles West debate program over the past two years have been to increase participation and acceptance of the activity in the school.

Morning Mouths

Every morning students were woken by the sound of chimes. Following the wake up call there are announcements. They confirm the final scores of sporting events, and the achievements of the students. Who were the girls that made homeroom tolerable? Their names were Carol Netzel and Brenda Hill. Each girl gets to make an announcement every other day. This makes it less confusing. That's not to say they don't make mistakes, they do. Getting words all mixed up is a problem, and then trying not to laugh at themselves is almost impossible. Carol Netzel had this to say, "When ever one of us makes a mistake, we wait until all the announcements are over, and then sit in a corner and laugh."

Ushers Club

The Ushers Club helps to make a school production operate smoothly. These polite courteous, and friendly students take tickets, hand out programs, and seat the audience. For a senior citizens' performance, special care is taken. There are escorts to the washrooms, and other personal courtesies. For the children's theater production, the students even sit with the youngsters. The club consists of 32 members with Sandra Goldstein acting as President, Martina Hoeller as Vice President and Joyce Dassow as Secretary. Meetings are not held weekly, but the students meet once before each event to decide who will work on each night. The club's sponsor, Miss Klinger, stated that it is important to use common sense in aiding the viewers. The nice thing about this club, is that one can help people and also enjoy the school productions.

Aeronautics Club

The Aeronautics Club cruised along at flight speed as one of our oldest organizations. Its primary target was to provide interested students with a chance to design, build, and fly model aircraft and rockets. The club alternated between airplanes and rockets, depending upon the season. In the fall, airplanes were flown; the winter was spent flying rockets and building or repairing airplanes for spring use. One of several group projects was the flying of large wire-controlled, gas powered airplanes. A balloon race was sponsored by the club last year to raise funds for these projects. The club was sponsored by Mr. Wayne Rogoski, and club officers included David Schwartz, President; Aaron Feinberg, Vice-president; and Mark Schwartz, Secretary-Treasurer. Mr. Rogoski adds, "This is the first year that there were girls in the club."

Chess Club

The Chess Club is a member of the North Suburban Chess League and participates in matches in the South Division. The team plays other clubs from schools such as New Trier, Evanston, and Niles North. The season consists of 6 matches of which Niles West has had a fantastic record.

Sponsor Mr. Holz comments, "This is definitely one of the best teams I have ever had the opportunity to work with." The team consists of six players, all of which have great concentration. Junior Jordy Sacksner states, "The hardest thing about becoming a good chess player is to maintain a good train of thought. The matches really put us under pressure."

The 1982-83 Chess Club included captains Ilya Reznikov and Ted Field, Todd Kaplan, Bob Hoerrmann, Jordy Sacksner, who along with Reznikov had the best personal record, and Todd Lichtenstein.

Top to bottom: Sophomore Todd Lichtenstein smiles after having check-mated opponent Jordy Saksner. Freshman Ira Levey contemplates moving his man forward.

Photography Club

"Say Cheese!" The Photography Club at Niles West is designed to help interested students improve their photographic skills and knowledge. During meetings in Photography Club, students learned new techniques in development and how to make mats and frames, along with improving their actual photographs.

One of the Club's projects was a Photography contest for all interested students. Pictures were submitted and the three best were chosen by members of the Club. The Club also took a City Walk, where they spent a day downtown and took pictures of the architecture and other interesting sights. Several slide shows were presented at different meetings by Kodak and, according to senior Neil Warshawsky, "The slide shows helped us to better understand our photographic techniques."

Although the club was relatively small, sponsor John Beeftink and students always welcomed newcomers.

Medical Careers Club

The Medical Careers Club consists exclusively of high-school age students, and is sponsored by Mrs. Korol. The President is Alan Dayan, Vice-President is Bennett Rosenberg, Secretary is Sabine Plonus, and Treasurer is Alan Limpin.

The purpose of the Niles West Medical Careers Club is for the students to share their interests about the medical field. Speakers on various medical topics come every couple of months, and meetings are held twice a month. Members also take field trips to the hospitals and old peoples home to increase their awareness of the many possibilities in medical studies.

The goal for the Medical Careers Club is for students to explore different areas in the health area. Every year they also sponsor the "Great American Smoke-Out". Over 100 Niles West students signed up for this.

Ecology Club

Front row: Linda Heidinger, Adrianna Alcalde, **Back row:** Richard Chi, Jordy Sacksner, and Mr. Firak

The members of the Ecology Club investigate the relationships of organisms to their environment. The purpose of the club is to help bring our own nature area into a better state of existence. The club meetings depend on the season. In the winter, the meetings were frequent, but in the spring the Ecology Club met daily. The club took a trip to the Indiana Dunes, which aided the kids to appreciate and understand nature. A major project that the club spent much time on was the "prairie", which is located behind the school. They tried to restore the prairie by slowly getting rid of invading vegetation which would destroy old but valuable plant life, section by section, either by plowing or with chemicals (which are safe). There are two methods of planting a new generation in the prairie: the first way is by broadcasting the seeds. This way is easier, but there is a smaller chance of the seeds' succeeding in propagating themselves. The second way is to start the seeds in the greenhouse. The seeds are planted and taken care of in the greenhouse; then they are moved to small peat pots, and finally moved to the prairie. There are no specific officers, and the members met informally. These members included: Bob Hoerman, Jordy Sacksner, Linda Heidinger, Adrianna Alcade, and Richard Chi. The Ecology Club helped the students to become more familiar with nature and bring them to understand why things live where they do.

Top to bottom: David Schwarz takes a short break and looks over what has been accomplished. Ecology Club members find that plenty of muscle is required in planting.

Opus One

Opus 1 is the literary, art, and photography magazine produced by the students and consists of material submitted by students during the course of the year. All material was carefully selected by the Opus 1 staff, which was led by Editor Michael Glick and Literary Editor Christopher Steele. The staff, sponsored by Mrs. Derichs, met every Thursday after school in Room 114, where they discussed and judged the latest submissions and worked on publicizing the magazine.

For the 1983 edition, Opus 1 emphasized originality, creativity, and ingenuity. The goal was to compile a collage of art and literature that expressed the thoughts and feelings unique to West's talented students. All grade levels were encouraged to contribute. The finished copy of Opus I went on sale in April/May 1983; however, most copies were ordered at the beginning of the year.

Student Union

"The main objective of Student Union is to plan social events which will be enjoyable for the whole student body. We hope to spread school spirit and unjfy the student body in the process," commented Student Union President, Stephanie Poulakidas. Last year a great change was made which involved many student organizations such as SAB, SRA, and class cabinets. SAB-Student Activities Board, now called Student Union had been completely reorganized and now meets every day according to committees. Student Union is the organization that plans many of the school's social events.

Student Union's hard work was evident in the outcome of the entire homecoming weekend. The weekend included such successful events as the in-school pep assembly, homecoming parade, Twi-light pep rally, Homecoming game, dance, and much more. The theme for the dance was "Somewhere in the Night", and the gym was decorated in a romantic, night-time atmosphere.

Other events were the mini-500 rollerskating contest and the Valentines Dance. This club, responsible for so many school social activities, offered a great opportunity for all those interested in spreading school spirits. As a result Student Union has done a great job in unifying our school.

Student Senate

Student Senate is the governmental organization within the Student Coucil. Students are required to operate under parliamentary procedures. The organization represents Niles West students at school board meetings, Educational Planning Advisory Committee meetings, P.T.S.A. Meetings, and various seminars. The group was sponsored by Social Studies teacher Gerald Boevers and directed under the leadership of President Debbie Havdala, Vice-President Becky Weinstein, and Secretary-Treasurer Anita Charous.

"We have tried to make Student Senate a means for students to learn about Democratic government," said Havdala, "but we also want to be a worthwhile representative group for all students at Niles West."

The organization implemented new features such as the Staff Service Recognition Award and "Open Forums." Senate created a new constitution that was ratified in December and has considered many important motions. At each meeting a written Agenda, that contains a complete copy of the minutes from the previous meeting, is provided to group members.

In the English Resource Center, Senior Hope Ross works on an essay.

"But why is this admit signed 'Bob Spagnoli's Mother'?" Mrs. Mroz, secretary, asks.

Senior Remembers . . .

I remember my first year of high school very clearly.

From September of 1979 to June of 1980, I, a vulnerable freshman, looked upon the seniors of Niles West as my wise elders. The tall muscular guys (some of them even had beards!) and the pretty, mature girls were symbols of an age and a time that were far, far away. These elites took sophisticated sounding classes such as College Prep, A.P. Chemistry, and C.V.E. They always seemed to be first in the cafeteria lines, first in the bookstore lines, and the first students admitted into the dean's office. Everywhere a freshman wandered, there was a senior there to beat him.

Throughout my sophomore year, my inferiority complex was almost as intense when it came to dealing with seniors. I remember the shock I experienced when I learned that some seniors actually owned cars and drove them to school. I recall the look of pride on a senior's face when he or she was accepted into the college of his choice. Most of all, I can remember attending the commencement of the Class of '81 and thinking that my own graduation day would probably never arrive.

My junior year marked a turning point in my high school career. I felt much older and more accomplished. When our senior pictures were taken in May, suddenly I realized that the wonderful milestone of being a senior was not far away.

Now that my senior year has approached, I realize that the meaning of being a senior carries more weight than simply being more physically advanced than the underclassmen. In addition, I see that the seniors were not created solely to scare freshmen and lead lunch lines. As members of the Class of '83, we are the students who, with our many combined achievements over the past four years, are faced with the task of representing Niles West for a full year.

Before we know it, we will be applying the knowledge that we have gained in high school, both academically and socially, in the "big world." With a Niles West diploma in our hands, we will certainly be prepared to face our futures.

Senioritis Can't Be Ignored

Senioritis-what is it? A well known disease that sweeps through high school students. Beginning in late spring of junior year, Senioritis will last until graduation day. While Senioritis basically affects students' attitudes toward school, homework, and underclassmen, it means something different to each person. Senior Joel Fink says that Senioritis means, "Being able to act obnoxious toward underclassmen and not having to worry about anyone looking down on you."

Senior Julie Mamett states, "It's a feeling of indifference. You no longer care about high school and you are now worrying about college."

Senior Lori Nelson declares, "It means having more freedom, even if it is only a little bit more than before."

Senior Neil Warshawsky simply defines senior year as, "A time when you are constantly enjoying yourself." Whether seniors have a mild or serious case of Senioritis, the disease cannot be completely avoided.

A Last Farewell Dedicated To Niles East

Two years ago when Niles East and Niles West merged, there was apprehension that the two rival schools would not be able to come together as one. Fortunately, the students became friends instead of enemies. The last class of Niles East is now graduating, and what they brought with them will never be forgotten. When the students arrived at West, they made new friendships and gained many memories that will last a lifetime. The rowdy Trojans added more spirit and support to their new school and helped fight the apathy problem.

We thank you, Niles East students, for providing West with the spark that began the bond of unification at Niles West. We bid a final farewell to the loyal Trojans who also maintained Niles East spirit during the past three years. East and West will forever live on as one and only one.

Seniors Must Go Separate Ways

As this is our final year at Niles West, we seniors have a lot to think about. Some of us will be going on to college to continue studies and others will be entering the world of work.

Thinking about our four years of high school, we have many stored memories that will last forever. Athletic events, the drudgery of every school day, Homecoming, and Prom will live on. Senior year marks a change in all of our lives. Everyone starts to realize that this is our last year together and that we may never see some of our classmates again. Guys and girls seemed more unified and sensed a strong feeling of togetherness. New friends were acquired and old friendships were strengthened. We all seemed a bit more mature and we realized that there wasn't much time left to spend with each other. It is now time for us to go our separate ways.

Midnight Riders Prowl

At 10:00 p.m. on Thursday night a car pulls up in front of a house. Seven girls jump out and creep toward it. Ten minutes later they run back to their car and take off, leaving a white tornado behind them.

What are these girls doing? Are they robbers? No, these girls are the Midnight Riders! Armed with rolls of toilet paper, the girls take about ten minutes to cover all the trees, lamp posts, and garage doors surrounding a house. They then jump back into the car and proceed on to the next house.

The Midnight Riders can usually be seen scattered throughout the entire Niles West area toilet-papering the homes of Niles West football players. Being a Midnight Rider is not easy work. Many hours of work a week go into it. If a football game is on Friday night, Wednesday night the girls get together at one of the houses and and posters are made for every team member. On Thursday night the girls do the acual T.P. job. Senior Pam Nisson says, "It's fun to go out and T.P. the houses because we know that the players appreciate that we are behind them one hundred percent!"

The next time you see a bunch of girls with tons of toilet paper attacking a house, don't worry. They're just harmless midnight riders!

Clothes Reveal All

The first day of high school is a hard day for most freshmen. Proceeding through the day, many new things catch your eye. You notice that there are all kinds of high school fads that that you will have to live up to. The vast variety of shoe brands and styles is especially observed. These include the Adidas or Nike tennis shoe, all types of clogs, Frye boots, and every style of Bass shoe on the market.

Sophomore year quickly rolls around. You don't have to worry about buying new shoes because you already have every type that is available. To your surprise, however, a new problem has arisen. Calvin Kleins, Sassons, Lees, and Levis are covering the bottom-half of Niles West students. Again you are out of place. Stretched-out and worn-out disco jeans just aren't in style.

Junior year you are an upperclassmen. Again the first day of school rolls along and, of course, there is a problem. Oxford shirts, Polos, Izods, turtlenecks, and shetland sweaters are being worn. T-shirts just don't fit in anymore.

Finally you are a senior. You are prepared for something to go wrong on the first day of school. To your surprise, the fad competition is over. Everybody accepts the individual taste of everybody else. You suddenly realize that you have made it to your senior year!

Senior Reflects On Past Four Years

As I entered West this past first day of school, my mind raced with anticipation. This was my SENIOR year. After three long years of being an underclassman, I, along with 600 others members of the Class of '83, had finally reached the top of the totem pole.

I remembered my very first day of high school. As a freshman, I carefully made plans with a few of my closest friends to walk to HIGH school together. As freshmen, we rarely traveled alone ... we were always in crowds.

As a sophomore, I felt more at ease with my status of "high school student". But even more comforting was dropping the label of "freshman". I was no longer the "new kid in town" and actually had a lower species to pick on.

The highlight of my junior year was the first time I drove to school. As I pulled into the parking lot with windows open and radio blaring, I couldn't help but smile to myself as I nodded to my peers as I drove past. Then came the walk from the parking lot to school. I stode in, with my books at my side and car keys jingling from my fingers (after all, I was almost a senior).

It's strange, but as an underclassman, I always had this "idea" of what it would be like as a senior. I always thought seniors "had it all". Now that I am a senior, I realize it is very different from what I had expected. It certainly is a special feeling being a senior ... but then again, it was also a special feeling being a freshman.

Aerobics Offered In Gym

"I'm finally having fun in gym class!" exclaims Junior Sherri Michaels.

The Girls P.E. Department began offering an extensive aerobic dance program, borrowing a sport from popular culture. During a 40 minute class period, the girls do a series of warm-up exercises, high-energy level aerobic dances, and cool-down exercises to poular music.

According to Jean Armour, Girls P.E. instructor, "Generally speaking, the girls in the aerobic classes actively participate and enjoy the class. Many of the students are disappointed when the 6 weeks are over and I wish we could continue aerobics."

Staff members have also become involved in the aerobic classes. Rita Kay, science instructor, said, "After reading about the aerobics classes in the Daily Bulletin, I decided to try it. It is a definite pick-up in the middle of the day, and it's a diversion from the stressful routine of teaching."

Those Amazing Boxes

Students find great diversity in the two fully equipped computer labs. Many students are not aware of all the intriguing capabilities of the computers. Freshmen were taken out of their study halls to spend ten days learning the basics of the computer. "This is a good idea," said Freshman Rhonda Bergman, "because in the years ahead West students will make use of computers in various ways."

Many students entered the computer lab to study for the ACT and SAT exams. The various disks include, primarily, vocabulary studies. As Junior Devra Lipsky stated, "I use the computers for studying antonyms and synonyms." Other uses for computers were for math, science, languages and business. Many students even made up their own original programs. Sophomore Lynda Jutovsky said, "I go to the lab during all my free periods to work out my own programs."

Students should be aware that there is always a teacher in the computer lab ready to give assistance to interested students. Once one gets a taste of the computer's capabilities, he can't wait to return to the lab and continue his discoveries.

A Typical Sophomore

If you ask them what they do, they will probably tell you, "Nothing," but during the year, sophomores don't just occupy their time by studying, sleeping, and eating. Baby-sitting, going to sophomore football and basketball games, and being "driven" to movies distinguish them from upperclassmen and they know it. That is why most wait with anxiety for the day they turn "Sweet 16" and get a chance to pass the test for their driver's license. They assume that this newly acquired form of transportation is the panacea to their social problems, only to realize it will be at least another year till their parents let them touch the family car.

What Life Is Like After Eighth Grade

Is there life after eighth grade? Freshman Steven Freed says, "High school is really different than what I expected. It feels good to be out of junior high." Many freshmen find it difficult to go from being the most admired students in junior high to the lowliest on the high school scale. The way in which freshmen are being treated has improved greatly. Freshmen are no longer swamped with offers to buy the illustrious "elevator pass". "The one thing that really bothers me about high school is that the halls are too crowded. I feel trampled on every time I walk down the hall." This comment was made by freshman Beth Wax. Laurie Chertow, another freshman says, "The classes are harder, but I'm having a good time. I've met a lot of people and I feel much older than when I was in eighth grade."

Freshman year, just like sophomore, junior, and senior years, is filled with good and bad experiences. It is the first rung on the ladder to senior year. Then, the cycle begins again.

The Cramming Crisis

It's an age-old game we all play. John Doe knows of his chemistry exam three weeks in advance. Although he realizes that he has over fifty compounds to learn, he waits until the night before to "cram" all the compounds into his head. This method of studying is not uncommon. Senior Stacey Aronson says, "Sometimes cramming is easier because I don't forget the next day what I learned the night before." "It depends on the subject," says Junior Mike Epstein. Mike went on to say, "It is very difficult to cram for classes such as Biology and Chemistry because they demand a lot of memorization." Freshman Steven Freed says, "Sometimes I do well when I cram, and sometimes I don't. It depends on how comfortable I feel with the subject matter."

Cramming for smaller exams is considerably easier than cramming for a huge final examination. Cramming helps to save time; however, it it not a good idea to consistently cram for tests. Cramming, if used in excess, may contribute to lower exam and final grades. So, when you find out about that huge Chemistry test three weeks in advance, don't be just another "John Doe," ask yourself these questions:

1. Do I know the material well enough to wait until the night before to study?
2. Is it imperative that I do well on this exam?
3. Do I have the time and energy to set aside a half hour each night to go over notes?

Consider the specifics and decide if cramming is for you.

Students Speak Out On Speeches

"The first speech is always the hardest," stated Senior Lisa Wax. Many students found it rather difficult to stand up in front of a class and deliver a speech for the first time. "My hands were sweaty and my voice was shaky," commented Junior Ross Erlebacher. However, most students of speech class are not discouraged by that first recitation. The popularity of speech class is consistently overwhelming. Senior Wendy Brandwein said, "Although the first speech was difficult, I found the class very worthwhile. I am now able to express myself clearly and reasonably both in and out of the classroom situation." "My first speech was on how to throw a football. I didn't think I was going to get through it without fainting. However, once that speech was over, I was much calmer and more confident during my remaining speeches." Giving a first speech seemed to have the same effect on Sophomore Scott Lutz that pressure in a football game put on its players.

Although "the jitters" and nervousness were the prevailing complaints students made about their first speeches, Senior Lori Freed stated emphatically, "Just remember, you're not alone!"

Board Of Education

Resignation was the main issue the Board of Education faced. With the resignation of Superintendent Wesley Gibbs, the Board began a nation-wide search for a qualified replacement and Sheldon Marcus was appointed to replace Terry Liston after her move to Texas prompted her resignation from the Board. Mary Helen Archibald was elected President of the Board and Nancy Cohen was elected Secretary. Other members of the Board included: Marlene Aderman, Erich Moch, Lowell Ruffer and Florence Sutker. The Board spent time reviewing school policies and initiating new ones to start in '83. They adopted a heavier-weighted grading policy effective September 1983 and voted to continue the 300 minute day. Early retirement for 26 teachers over the next three years was approved as well.

Administration

Dr. Nicholas T. Mannos; secretary - Mrs. Dorothy Mitnick.

James Swanson; secretary - Mrs. Marlene Karpinski

The mission of Niles West High School is to aid our students toward the fullest development of their innate potential. In our school, we are most fortunate to possess a committed, dedicated and experienced administration and staff who, throughout the years, have offered excellent educational opportunities in all areas of our curriculum. I continue to be most impressed with our vitally interested and concerned Board of Education and community, which have provided Niles West with excellent facilities and outstanding instructional materials and resources. It is a privilege to be a part of such an exciting, positive and dynamic venture toward the education of our youth. Niles West can attain excellence in each and every aspect of our program! This measure of success is dependent upon the commitment, zeal and sense of purpose by which we pursue our goals. May I express my thanks to our staff and administration for a most productive school year. Congratulations and best wishes for great success to the Niles West Class of 1983.

Dr. Nicholas T. Mannos

Directors

The administration decides the major changes, occurences, and happenings. They are a dependable group who will oversee the general operation of the school as a whole. The administration meets once a week with eleven people; the Principal, seven directors and three deans. Usually only nine people attend, though one dean represents all three. There is a special agenda which is pre-written and then followed on the day of the meeting. Each session has a different agenda, and a rotating recorder of the minutes. In general, at these meetings problems of the school, and items occurring in the daily routine are discussed. Some of the more specific topics discussed are the school government, the mod system, new courses and grade weighting. The welfare of the students depends upon the careful work of the administration.

Deans

Larry Erickson

Jerry Kupferberg

The dean's office was not as busy as in recent years. Last year, the number of unexcused absences exceeded the amount accounted for this year. The deans: Erickson, Kupferberg, and Yunker, seemed to believe that the new attendance policy was working well. Many students attended a new addition to the school, Saturday detention. This innovation stopped students from receiving further BAC assignments. Also, the deans followed through on dropping people from classes in which they had excessive absences. Over all, the attendance at Niles West has definitely taken a step in the right direction.

Counselors

The dictionary definition of "counselor" is: one who advises. But for the counselors at West, a broader definition would be more appropriate. Simply, counselors can be thought of as friends.

Counselors must deal with the students' academic concerns and personal needs. Our counselors are usually always ready and willing to listen, to help, and to work with the kids. They are here not only to advise, but to also guide students through their growth and development. Their main concern is watching the students graduate as independent and resourceful young adults.

English

A very popular and important class in the English Department is College Prep. This class enables students to grasp essential English skills which they may not have had the chance to learn in their earlier English classes. College Prep also provides an opportunity for seniors to write on a college freshman level. The text used in College Prep is also used in college freshman writing classes. The basic curriculum for the class includes readings by modern authors and non-American literature classics. College Prep is a class which is rated high among teachers and students alike.

Sophomore English teacher, Mr. Flynn, and devoted grammarians learn the various ways of constructing sentences.

Math

Thirty-two computers are quite a lot, but not enough for Niles West students. Over 200 students have attended the computer rooms daily to strike away at the keys. Anything from foreign language discs to game discs can be played. Classes are even offered to students during assigned study halls for ten days of basic programming. Everyone including teachers had a lot of fun with them.

The math and sciences weren't the only classes to use the computers. The Spanish Department, English Department, and the marching band held classes in the computer rooms.

Computers are a big part of our future lives and everyone should have some experience with them.

Science

The Niles West Science Department was successful once again, especially in the Chemistry Division. On some days, you could walk down the third-floor corridor and it would smell like a professional Chemistry lab. If you ventured into one of the Chemistry rooms, you might seen students wearing funny looking goggles and aprons, watching experiments smoke and bubble. Students found it remarkable when they created concoctions of different colors that they didn't even know existed. You could always see science students comparing data to prepare for the dreaded lab reports. To end each period, there was always the final rush to get those test tubes clean.

Social Studies

Though the core curriculum remained essentially unchanged, the Social Studies Department intiated several cocurricular measures this past year aimed at highlighting the contemporary importance of the social sciences. Among these actions were the formation of the Current Events Club, the continuation of the Seminars for Scholars, and the expansion of the Library Speakers' Forum, programs with topics as diverse as "Entropy and Our Future Energy Supplies" and "Latin American Crises." Commented John Lorenz, departmental director, "Our students are demanding that we seek solutions to current issues in a way which we haven't seen since the 60s ... what we have now is a positive intellectual riot."

Foreign Language

It is estimated that about half of the students at West are enrolled in a foreign language. Linguists can choose from Spanish, German, French, and Hebrew. Each language has different levels ranging from basic to Advanced Placement courses.

Many of the teachers in the foreign language department have been keeping unusually busy. For instance, Mr. Brink now teaches German classes at both West and Lincoln Hall Jr. High. Some of the teachers have also been broadening their teaching skills, Mrs. Georgiev, for one, has made the transition from teaching French to Spanish.

Outside the classroom, students have also been able to check out the many language clubs.

Drivers Education And Health

Drivers Education, a one semester class, teaches the fundamentals of driving, and prepares students for their license test. This class consists of three parts; Classroom, Behind the wheel, and On the Range. Russel Edidin, a Drivers Education student, comments on the subject, "I thought Drivers Education was a good course, and the range was really fun."

The health program at West not only teaches students about alcohol, sex, drugs, and personal hygiene, but also provides the students with extremely important information on C.P.R. (Cardio-Pulmonary Resuscitation). During the time of the C.P.R. unit, students are taught the correct procedures for reviving a choking victim and applying one-man C.P.R.

"C.P.R. is a very worthwhile unit because it trains students in saving lives," Senior Pete Joseph states.

Health teacher Mr. George Galla believes, "everyone should have the knowledge and ability to perform C.P.R."

The Art Program is a program where students can take classes and express themselves in the forms of art. There were many interesting classes dealing with everything from the most basic techniques in sculpture, painting and drawing, to a class in three dimensional design. More and more students got involved in the art programs, and were able to find their artistic abilities. Gina Gramatis said, "I learned to express my emotions through my artistic projects." The art department has many art facilities including kilns, ample display areas and extensive art materials, and students derive lasting cultural and personal benefits from art courses.

Sophomore Art students, Jeff Krakow and Ron Kaluzna, are attracted by the new novel, "Hot off the Self."

Physical Education

For 40 minutes each school day, students attend physical education classes. P.E. is mandatory and is a required class for graduation.

"I personally like gym," Senior Lisa Shapiro commented, "It's a good break during the day and I get to exercise." This enthusiastic attitude was shared by many; however, some students like Senior Wendy Smason think gym is "Just okay. It's nothing special."

Students participate in a number of outdoor sports during the fall and spring months. This includes football, soccer, track, tennis and softball. During the winter, sports include weight training, gymnastics, basketball, swimming, and wolleyball.

The girls' gym program also includes aerobics, folk dance, archery, cross country skiing and circus stunts.

Something new was the forming of a boys' leaders program. In the past, the leaders program, a sort of "honors" gym class, was dominated by girls. However, the first boys' leaders class experienced much popularity and success.

Industrial Arts

A wide selection of Industrial Arts classes were offered to students. These classes ranged from aeronautics, auto mechanics, and electronics to drafting, metal working, and wood working. Students seemed to like Industrial Arts classes because they develop skills that are very useful; also, they seemed to like the freedom of these classes. Projects which were constructed by the student were brought home at the end of the year. An Industrial Arts favorite among students was auto mechanics, which taught the different parts of the car and how they work. Ray Chao, who became an "autos" student to learn some basic automotive skills before investing money in a car, said, "Auto mechanics was a good course because it taught me the fundamentals of the car, things everyone should know." Frank Epstein, an electronics student, gets a head start; "Taking electronics was a good way to get started in a good field." Industrial Arts classes were an important factor in helping students begin early to gain career skills.

Home Economics

A round-up of the home economics classes revealed boys in all areas - yes, even clothing. In a class that kept them in stitches, students learned to make designer T-shirts, flight jackets, and even blazers. Students in child development happily worked with 3 year-old children in the nursery school. Foods classes offered an opportunity to learn to eat and enjoy preparing a variety of foods. In International Foods students sampled the food of other countries and in Vocational Foods, they decorated cakes and operated a restaurant. Students in interior decorating expressed themselves by designing and planning projects for various rooms of the house.

The band was off to a flying start. In order to get ready for their trip to Montreal, Canada they had numerous fundraisers and sold everything from memoboards to candy bars. The football season was made more exciting by the Niles West Marching Band. The extra special routine was taught by Dr. Robert Morsch of Georgia State University, and Sophomore Nadine Hanson served as drum majorette for the band. They played at all of the home football games and helped the Indian fans cheer their team on. This was the last year for band director Dr. Charles Groeling who will retire in June. He has been with Niles West for over twenty years and he will be missed by his admiring students.

Media

Not only did the media center, which serviced over 222,000 people in 1981-82, increase its immense collection of books, periodicals, and other research materials, but also expanded upon and initiated many cultural and academic programs. Under the leadership of media coordinator Helen Porten, National Library Week, April 18-24, was an enormous success. This is a program that sponsors a student poster contest, exhibits books, and invites to the school famous authors such as Ms. Charlotte Herman and Mrs. Lucinda May. Another outstanding program, "Speaker of the Month," initiated by media specialist, Arnold Agnos, hosted speakers from a wide variety of fields including journalism, public relations, radio, and patents presented by a self-made millionare.

In a further effort to broaden students' horizons, nineteen display cases and ten special art exhibits were featured. The display cases, which are located between the annex and main library covered a variety of topics: consumer information, college and career planning, and hobbies. The art exhibits in the main library offered students and staff an opportunity to display paintings, sculptures, and even contemporary photographs.

Business

As we move into a more advanced world, computers are becoming a major part of our society, not only in the world of business, but at Niles West. In the Office Procedures class, many different machines are used. Students practice data entry on the computers along with more basic skills on calculators, adding machines and copiers. In the accounting classes, most of the calculations are done by computers. The typing and shorthand classes use dictaphone machines at different speeds, depending on the student's ability.

The computers have cost the school a great deal of money, but the school board feels that this is an investment that will prepare the students for the future computerized world.

Cooperative Vocational Education (C.V.E.) is a career-oriented course which offers students a chance to take on a job during the school year. The students receive one credit for classroom time and one credit for an outside job. C.V.E. provides student the opportunity to get jobs for not only extra money, but also for some valuable experience.

Some of the positions included: salespeople, office workers, gas station attendents, stock people, medical assistants, insurance clerks, cashiers, and restaurant work. The students usually left West for work around 1:00. The workers were reported on by their employees and teachers periodically to insure punctuality, proper dress, regular attendance, and responsibility for completing assigned tasks. As wage earners, the students developed appreciation and respect for work and in turn, have established worthwhile work experience.

"May I help you?" is a useful question as C.V.E. student Jodi Beckerman learns.

Student Services

For those students who needed help with special problems, Niles West had many people ready and willing to help.

Students who weren't feeling well found the school's nurses, Dorothy Taylor and Barbara Scarbrough, to be helpful and understanding, while others with personal or school problems found David Lee and Marlene Peterson ready to help. Psychologist Charles Kemmler was also there to help students with their problems.

The Action Learning Center (ALC) in many ways was like a third high school in District 219. This group consisted of about thirty juniors and seniors who participated in an experiential, "hands-on" approach to learning. The students worked at day care centers, homes for the elderly, and accounting offices. They also published their own newspaper and planned field trips to many cultural places.

Office Personnel

The individuals who make up the office personnel are a group of hardworking men and women whose work ranges from supervising the resource centers to secretarial work for the deans and counselors. Through doing many time-consuming tasks they know their jobs and the people for whom they work.

The students benefit greatly by having the services of the office personnel who provide the students with information that would otherwise be very difficult to acquire. Men and women not only have work in school, but some of them even sponsor extracurricular activities. Miss Philbin, the driving force behind the English Resource Center, states, "My first job is to help the students with their questions as well as help the teachers with their paper work. My most creative job consists of my work in the theatre department."

Niles West office personnel are ofren overlooked by the student body, but play an important role in helping to effectively run the school.

Janitors

As everyone knows, it's easier to make a mess than to clean it up. However, it has to be done, and it is done well by the custodial staff. Thanks to them, the students walked down swept hallways and ate in a clean cafeteria. They were also successful in keeping the grounds unpolluted and, in general, maintaining the school.

Speaker Of The Month Program

Loughman talks to students about current events during the broadcast of his two hour show at West.

Matthew Carbone shows students his photo album of cars, which includes six Cadillacs, two limos and two movie cars.

The Media Center sponsered a new program at West, the Speaker of the Month series. Each month, a guest was invited to the Library Annex to speak with students. Among the many popular speakers were Bill Rechtenwald, investigative reporter; Matthew Carbone, inventor; Jim Loughman, WGN radio talk show host; and Donn Pearlman, WBBM radio correspondent.

Carbone, who was a millionaire by the age of 19, drove to West in his custom-made James Bond 007 Movie Car. The car, which has a T.V., wet bar, radar, smoke screen and oil slick, was just one of Carbone's many cars.

One guest, Loughman, visited West twice. The second time, Loughman broadcasted a two hour radio show live from the auditorium. All West students, parents and faculty were invited to discuss timely topics such as the draft, ERA, abortion, the education system and peer pressure.

The program was quite successful as hundreds of students attended month after month.

Dear Drinking Partners → Senior year has been really a great from our early senioritis to our many Saturday nights. From smillies sleep over party to the football games, to spanksies hangover party to our famous ski trips, and so many other fantastic times. We will all go our separate ways but there will still be a place in our hearts for you all!

The Class of 1982 had it much better off than us, The Class of 83. The reason for this statement are the many things that were put upon us. We were the first class to have study halls as well as after school BAC and Saturday detention. We also were the first class to need parental permission to leave campus - Senior year! However!, We were the first class to have the best teachers, the best counselors and the best administrators in the whole state, but also the worst! These historic words were composed and written by two outstanding students, Steve S. + Ken J.

The Ones Who Put It Together

In the past years, Spectrum has attained honors around the country that makes one proud and want to keep that standard. I felt very honored to be the chief of the tribe for Spectrum 83' and without the help of many people, Spectrum 83' would have lost its status. The hard work of many paid off and they deserve comendation.

I'd like to thank assistant editor Ray Chao for his help when crises occurred just before deadlines and for his work on the opening section, Lisa Shapiro for a terrific job' on the senior section that she only had two weeks to produce it in, and for her constant dependability.

Special credit also goes to Karen Schwartz for all her late night work on the clubs section which is the most difficult, photo editor Ellen Havdala; and section editors Van Stamos, sports; Tami Weitzman, special events; Steve Miller, faculty; Devra Lipsky, juniors; Erica Stone, sophomores; and Holly Gershanov, freshman.

Acknowledgment also goes to Julie Keller for all her work on the index, Lauri Balbirer, Lisa Freed and Chelli Krakow for all their dedication and John Witte for all his help.

A special thank you also to advisors Jerome Orr and Angela Graham for all their expertise and guidance; Jostens Representative Dennis Eder for his knowledge and Richard Antes and Marge Phillippe for all their help.

With their help and that of others tribesmen, Spectrum 83' has captured many memories that will last forever.
